

pinet

De-Restrains

Fastest, strongest and safest de-restraint system in the world

Fastest

30 seconds to apply

Touch-release locking mechanism and one-way velcro cuff

Strongest

Cut-resistant materials

Patented button-and-pin system capable of withstanding 700 pounds of pressure

Cuff - 550 lbs of pressure

Safest

Unbroken safety record: zero reported injuries to patients or staff

Curved cuffs help ensure secure containment, upper body straps restrict upper body movement

Patient- friendly & humane

Flexible system

Adjustable system allow for full range of patient motion (if desired), leading to quicker de-escalation and safer, less volatile environment

Non-abrasive materials

Choice materials mold to the contours of the body, preventing pressure points, skin irritation, and discomfort during extended use

The Gold Standard

Pinel vs. The Competition

pinel

OTHER RESTRAINTS

Application Speed	Applied in 30 seconds	Up to 10 minutes
Staff Safety	Zero reported injuries	Staff injuries and lawsuits not uncommon
Patient Safety	Zero reported injuries	Skin damage and frequent harm
Psychological Harm	Minimal stress	Elevated stress
Strength	3x stronger than leather	Tears easily under strain
Adjustable	Lock down fully or release incrementally	All on or all off—no in-between
Fabrics	Soft, skin-safe, antimicrobial	Harsh, breakable, bacteria-prone
Support and Training	Learning portal, virtual and in-person all available and encouraged	Basic manuals
Complete System	One kit for all needs—bed, chair, stretcher	Multiple SKUs for different uses
Cleanliness and Bacteria Control	Antimicrobial and easy to wash	Absorbs bacteria, hard to clean
Sizing	One-size-fits-all	Fixed sizes (XS–XL)
Cuff Safety	Anti-slip, secure, gentle	Gaps, slippage, self-removal
Ease of Use	Velcro and touch-release locks	Knots, buckles and complexity

Industries Served

Hospitals and Mental Health Facilities

Pinel products have become a critical tool across entire hospital networks and departments spanning ER, ICU, mental health and ambulance networks.

Long Term Care Facilities

Pinel's presence in elderly care facilities ensures safety and compassion, offering staff a reliable system to manage challenging situations without compromising patient dignity.

Security and Correctional

Pinel is a trusted partner to correctional facilities and security organizations worldwide, delivering fast, reliable stabilization and transport in high-risk, high-pressure environments.

Trusted by Industry leaders

Pinel is trusted by world-class leading organizations,
spanning several industries across the globe.

30+ Years Of Service

Pinel's leadership in the field is the result of over 30 years of relentless research, thoughtful design, and—above all—direct feedback from frontline caregivers. Founded in 1994, the company has continuously evolved its products in close collaboration with nurses, doctors, paramedics and mental health professionals. This ongoing dialogue has allowed Pinel to refine every element of its system—prioritizing safety, speed, and ease of use for staff, while preserving dignity and comfort for patients. Today, Pinel's patented system is widely recognized as the most advanced and comprehensive restraint solution in the world, trusted by hospitals, long-term care homes, correctional facilities and emergency responders across five continents.
