

SMART XTRACTSR STRETCHER

The Smart XtractSR Stretcher provides safe and rapid casualty extraction from hazardous locations, reducing exposure to hostile locations and secondary injury.

This stretcher is extremely robust despite it's lightweight material: it weighs less than 1.5 kg in total and can safely carry up to 300 kg in weight. It can be carried in operational equipment, making it the most convenient and easy-to-use stretcher for rescuers and patients in temperamental weather or terrain conditions.
