

EKOMPACT CHAIR

Promotal conducted the largest ever survey of medical examination furniture with 200 doctors from 6 European and Middle East countries. This allows us to develop adapted products with a high added value.

eKompact is currently the most suitable height-adjustable examination table for healthcare professionals and their environment. In addition to its sitting position, its storage and integrated retractable stirrups allow you to perform a complete examination on a 1m³ table. It becomes a real assistant for the patient and the practitioner by adapting to their morphology and preferences thanks to the ability to record favourite positions and its autonomous movements.
