SUCTION EASY

Suctioning a patient is not a glamorous task, but in the presence of a blocked airway...

Undoubtedly, the ability to effectively clear the pharynx is one of the most critical of basic rescue skills. **Suction-Easy is a simple, inexpensive solution to facilitate training and use for this aspect of airway management.** It also provides you with the quickest, safest and most effective form of immediate oral suction. Suction-Easy is a must have in your first responder airway kit.

Suction-Easy has a unique double-valved design that allows continuous operation with one hand, while the other hand directs the suction tip throughout your patient's oropharynx. A consistent vacuum force is applied with each squeeze of the bulb and the material drawn into the bulb is expelled into an attached collection bag. You maintain excellent visibility throughout the procedure.

SKU: EMI610

DUCANTO CATHETER™

The SSCOR DuCanto Catheter is a new catheter that is unlike traditional Yankauer suction tips that are designed for controlled surgical settings. The SSCOR DuCanto Catheter was developed with both routine and emergency airway management in mind. It has a larger internal diameter making it significantly less likely to clog and is shaped to fit the oropharyngeal anatomy. The hyper curved catheter is shaped more like a patient's airway making it easy to position the catheter.

Additionally, the SSCOR DuCanto Catheter does not have a thumb port. By removing the vacuum control, the caregiver does not need to locate and continuously occlude the thumb port to clear a patient's airway. This allows continuous suction and keeps hands free.

SERENEVIEW CURTAIN

Forty years of research shows that viewing nature scenes in the healthcare setting lowers blood pressure, anxiety, and pain medication intake. Recent MRI studies show the brain releases serotonin, the happy hormone, when we view nature scenes.

Wall treatments can be a vinyl wallpaper application or stretched fabric over a Recore® acoustic panel system. Installation is available.

SKU: SV.CURTAIN

DISPOSABLE CURTAINS

Each EcoMed disposable curtain is treated with the 3rd Generation Ultra-Fresh built-in antimicrobial protection.

ENCLEAN BRUSH (MULTI-USE)

EnClean – Purple Reusable Cleaning Brush. Single Patient Use.

For use in cleaning the internal threads of the Nasogastric tubes, removing any residue that is left behind from feeds and medication.

Designed to last a minimum of 30 days. Follow directions of cleaning, allow to air dry

10 Units

SKU: ENC1252122

ENFIT 3 WAY STOPCOCK

2 ENFit male and 1 ENFit female, three way stop cock. Box of 35.

Optimises safe accurate and hygienic administration of enteral feeds or medication. Used to connect additional Enteral lines and mix Enteral medication.

Sterile. Single patient use. DEHP/Latex free.

SKU: CA.NCE300R

BOTTLE SCREW CAP (28MM)

Cair Enfit Bottle Screw cap for medication dispensing, reduces the risk of overdosing, allows for greater accuracy as a requirement for ISO 80369-3. Cap size 28mm - Box of 50.

Suitable for most drug bottles

To be discarded when the bottle is discarded. Reduces cost of single use items.

DEHP/Latex free

SKU: CA.NCE302C

ENFIT ADAPTER (5 STEPPED)

Cair. ENFit male 5 Stepped Funnel Transitional Adapter. Box of 100.

Designed to fit the end of a traditional feeding tube to enable an ENFit female syringe to connect.

Sterile, Single Patient use, DEHP/Latex free

SKU: CA.NCE105A

ENFIT ADAPTER (4 STEPPED)

Cair ENFit male 4 Stepped Funnel Transitional Adapter. Box of 100.

Designed to fit the end of a traditional feeding tube to enable an ENFit female syringe to connect.

Sterile, Single Patient use, DEHP/Latex free

SKU: CA.NCE104A

ENFIT ADAPTER (FUNNEL WIDE)

ENFit wide, soft female funnel in orange, with cap. Box of 100.

Sterile, Single Patient use, DEHP/Latex free

SKU: CA.NCE101A

ENFIT ADAPTER (FUNNEL & CAP)

ENFit female, soft funnel in white, with cap. Box of 150.

Sterile. Single patient use. DEHP/Latex free

SKU: CA.NCE100A

ENFIT ADAPTER (ASPIRATOR PORT)

Y adaptor. 1 ENFit male, 1 funnel and 1 stepped Enfit connector. Box 50.

Adaption of a Salem Sump tube to ENFit as a requirement for ISO 80369-3.

Sterile. Single patient use. DEHP/Latex free.

SKU: CA.NCE102Y

ENFIT Y-PORT CONNECTION

Y port adaptor. Has 2 male ENfit and 1 female connections. Box of 100.

Can be used as a dual access port for ENFit Nasogastric tubes.

Able to decant from one ENFit syringe to another using this device and CA.NCE221C.

Sterile. Single patient use. DEHP/Latex free.

SKU: CA.NCE100Y

ENCLEAN BRUSH (SINGLE-USE)

EnClean – Purple Single Use Cleaning Brush. For use in cleaning the internal threads of the Nasogastric tubes, removing any residue that is left behind from feeds and medication.

Use once and discard

100 Units

SKU: ENCS2017100

DRAINAGE BAG (500ML)

Midmed 500ml Drainage Bag – ENFit connection to NG Tubes – Outlet has clamp and lockable connection for ENFit Syringe. Suitable for free drainage and venting the stomach for paediatrics.

Box of 20

Additional sizes available on request: 50ml, 1000ml.

SKU: ML.DBISO-500

DRAINAGE BAG (50ML)

Midmed 50ml Drainage Bag – ENFit connection to NG Tubes – Outlet has clamp and lockable connection for ENFit Syringe. Suitable for free drainage and venting the stomach for paediatrics.

Box of 20

Additional sizes available on request: 500ml, 1000ml.

SKU: ML.DBISO-50

VENTED CAP (20-50ML)

Cair vented cap for 20 ml and 50 ml ml syringe with air filter - Box 100

Enteral vented caps for ENFit syringes for enteral feeding via gravity

Sterile, Single Use. DEHP/Latex free

SKU: CA.NCE152C

VIAL CAP (20MM)

Cair Vial cap 20mm. Box of 40. Vial cap for medication dispensing, reduces the risk of overdosing, allows for greater accuracy as a requirement for ISO 80369-3.

Suitable for vial mixing medications. Sterile, Single use. DEHP/Latex free

SKU: CA.NCE20C

BOTTLE STEPPED CAP (10-24MM)

Cair ENFit bottle cap for medication dispensing, reduces the risk of overdosing, allows for greater accuracy as a requirement for ISO 80369-3.

Stepped cap from 10 mm to 24 mm. Box of 100 or Pack of 10. Designed to fit inside bottles with these dimensions. To be discarded when the bottle is discarded. Reduces cost of single use items. DEHP/Latex free.

SKU: CA.NCE100C

PH TESTING STRIPS

This pH Test strip pack is CE marked and meets the special demands of health care professionals to ensure rapid and safe results for medical pH-testing. These Test strips range from 2.0 to 9.0 with 0.5 increments that make for accurate testing.

SKU: MN.92118

NASOGASTRIC TUBE HOLDER

The NasoGastric Tube Holder is ideal for holding nasogastric feeding and aspiration tubes, such as Salem Sump, Levin Tubes, and Feeding Catheter Tubes (Dobbhoff). The unique dual interlocking tabs spiral around the nasogastric tube ensuring superior tube security. The non-adherent plastic tips on both tabs make tube removal safer and easier without scissors.

SKU: DA.161

SINGLE USE ENFIT SYRINGES

Syringes from 1ml to 50/60 ml for enteral medication, flushing, gastric residuals and breast milk or enteral feeding administration by gravity, bolus or syringe-pump.

SKU: MS.SE60

LONG-TERM ENFIT FEEDING TUBES

Our Economical PU Feeding Tubes can be used for up to 45 days. Polyurethane (PU) enteral feeding tubes are even longer-lasting and more durable than their PVC equivalent and are just as compatible across the brand's range of enteral products. They come with a number of distinct features, meet ISO 80369-3 compatibility standards.

SKU: CA.NCE312PU

SHORT-TERM ENFIT FEEDING TUBES

Our unique PVC enteral tubes provide compatibility across the brand's range of enteral feeding products. They meet ISO 80369-3 standards and come with a number of distinct features.

- Readymade male EnFit™ connectors
- Numerical markings (in centimetres)
- Closed rounded tip
- 2 lateral distal openings
- 2 radiopaque stripes over transparent tube
- Available in a range of lengths and sizes from 4 Ch/Fr to 10 Ch/Fr and in a variety of widths

SKU: CA.NCE110P

HOME USE ENFIT SYRINGES

1ml, 3ml, and 5ml on special only.

Syringes from 1ml to 50/60 ml for enteral medication, flushing, gastric residuals and breast milk or enteral feeding administration by gravity, bolus or syringe-pump.

SKU: N/A

COMPACT DISPOSABLE UNIT

The Compact Disposable Unit (or CDU) is a sterile (per patient) warming component, with up to 3 years of shelf life. It is compatible with all Warrior configurations, i.e. the Warrior Lite, Warrior, Warrior EXTREME, Warrior AC, and Warrior Hybrid.

NOTE: The CDU must be used together with a Warrior configuration!

The CDU can be easily moved from one Warrior configuration to the next so as to facilitate a complete continuum of care implementation and by that simplify patient's handoff between settings and reduce the overall cost of ownership (fewer consumables).

SKU: QF.QPORT0500SUC

LIFEBOX MEDICAL BOX

The next generation of EMS transport containers is here. The key lies within the Carbon panels that produce insulation values of R50; 2x more powerful than anything else on the market. This allows for more payload space and greater efficiency in both hot and cold environments.

SKU: F.6001024

QINFLOW WARRIOR - BLOOD/FLUID WARMER

SKU: QF.Q211050000SUC

QINFLOW WARRIOR LITE - BLOOD/FLUID WARMER

High performance yet compact and light blood and IV fluid warmer for space and weight constrained rescue gears, first responders, and critical care transports. It has field proven technology and affordable consumables with a unique continuum of emergency care proposition.

SKU: QF.QIF03-BUA1000SUC

LIQUIMAT STANDARD

Ensures a dry floor and minimises the risk of slipping. The Liquimat Standard is a highly absorbent floor mat for dry floors under the operating table

SKU: SM.LMS07500360-623

WRASFER™ TRANSFER SHEET

The WRASFER™ Patient Transfer wrap sheet is designed for swiftly and hygienically transporting immobile or injured patients in high-pressure emergency situations. WRASFER™ disposable patient wrap and transfer sheet is designed for use in paramedic services, hospital emergency wards and operating theatres, in situations where fluids need to be easily absorbed.

With a fluid absorption capacity of 5 litres and a max. carrying weight of 200 KG, WRASFER™ is an extremely versatile product. It addresses four critical issues: contamination control, cleaning time/ costs, ambulance turnaround times, and patient transfer.

SKU: WRASFER

AMEDA® MYA™ JOY DOUBLE BREAST PUMP

The Mya Joy has been designed with versatile features, safety and comfort, offering the best value for moms who are looking for a convenient pumping experience. Compact, lightweight and quiet, the Mya Joy also features the world's only FDA-cleared pump kit that helps protect breastmilk from contaminants. This pump delivers on the ultimate promise of comfort by offering a wide range of settings, mom-friendly features, and flange sizes. Whether pumping on-the-go, at home or at work, Mya Joy offers pumping without compromise.

SKU: AM.131T22.A

AMEDA MYA® HOSPITAL STRENGTH BREAST PUMP

The Ameda Mya Joy® is a breakthrough hospital-strength portable breast pump that is compact without compromise to help make mom's pumping experience the best it can be. Mya is small, super lightweight, ultra-quiet, and can be operated by a battery. Mya offers moms a convenient, safe, discreet way to provide their babies vital nutrition with a new level of freedom.

SKU: AM.131T22.A-2

PENGUIN NUTRITIONAL WARMER

Going above and beyond just warming breast milk, The Ameda Penguin Nutritional warmer ensure that each feeding is always safely delivered within the ideal human physiological temperature range of 36-37°C, regardless of the starting temperature. A feature which is unique to the Ameda Penguin Warmer is our gentle vibration technology which prevents potential nutritional degradation by continuously stirring the milk throughout the warming cycle for a more even and consistent warming. Our technology then eliminates the need to shake or roll the milk to even out any dangerous hot spots.

SKU: AM.PNW00115AU

FLOWCUP

The Materni flowcup is a simple, convenient accessory for feeding infants who have difficulty sucking.

SKU: MI.MEP

FLOWSPOON

A simple and convenient accessory for safely giving the first breast milk (colostrum).

SKU: MI.MEPAO112

NON-STERILE BABY BOTTLES

Materni bottles are suitable for the hygienic collection and storage of breast milk and the preparation of formula. They are bottle warmer, microwave, dishwasher and freezer safe making them highly versatile. Bottles have a screw on cap to ensure micro-biological cleanliness and have clear volume markings to make milk preparation quick and easy. They are available in four sizes: 50 ml, 80 ml, 120 ml and 240 ml.

SKU: MI.MEPA0109

MILK STORAGE BOTTLES

Ameda Breast Milk Storage Bottles can be used to safely store expressed milk in the fridge or freezer. They are clearly marked to measure your milk, and have space for clear labelling.

- Universal threads - compatible with all standard pump kits and with all Ameda HygieniKit Milk Collection Systems.
- BPA and DEHP free
- Dishwasher and Freezer safe
- Fit with 2-piece lock-tight bottle caps to protect your milk.

SKU: AM.17244

BREAST MILK STORAGE BAGS

For the most simplified pumping and storage process available, pump breast milk directly into Ameda's Store'N Pour™ Breast Milk Storage Bags with compatible Ameda flange adapters. It saves time, hassle and energy, allowing you to speed up the feeding process according to your needs.

SKU: AM.17243

STERILE BABY BOTTLES

Our disposable baby bottles come in a variety of configurations.

SKU: CA.NCB1240A

AMEDA PLATINUM BREAST PUMP

SKU: AM.17805T

MANUAL BREAST PUMP KIT

Breastfeeding can be a wonderful and exciting experience, granting Mother and child the opportunity to bond and share first of many special moments. However, there are times where breastfeeding may not be possible, due to time, space, location or nipple refusal. Breastfeeding can also be overwhelming and exhausting, regardless of whether you're a first time mother or a mother of five. Ameda manual breast pumps are an excellent choice for mothers who pump their breast milk no more than once a day.

TRANSDUCER HOLDERS

The Dale Transducer Holder offers a level and secure platform for up to three transducers. Stability ensures correct waveform readings and corresponding numerical display.

SKU: DA.620

NASAL DRESSING HOLDER

The Dale Nasal Dressing Holder replaces adhesive tape to hold nasal dressings in place following rhinoplasty, septoplasty, sinus surgery, facial trauma and nose bleeds. Clear plastic dressing holder is secured by ear loops. Hook & loop fastener tabs can be infinitely adjusted to fit any patient comfortably.

SKU: DA.600

BREEZELOCK® ENDOTRACHEAL TUBE HOLDER

The Dale BreezeLock Endotracheal Tube Holder provides reliable stabilization of endotracheal tubes (sizes 7.0-10.0mm) following intubation. It can be used in supine or prone position.

SKU: DA.280

NASOGASTRIC TUBE HOLDER

The NasoGastric Tube Holder is ideal for holding nasogastric feeding and aspiration tubes, such as Salem Sump, Levin Tubes, and Feeding Catheter Tubes (Dobbhoff). The unique dual interlocking tabs spiral around the nasogastric tube ensuring superior tube security. The non-adherent plastic tips on both tabs make tube removal safer and easier without scissors.

SKU: DA.161

CATHETER HOLDER ADHESIVE PATCH

The Hold-n-Place Adhesive Patch is a skin friendly, breathable adhesive device, versatile enough for all of your indwelling Foley securement needs. The adhesive patch, with a skin-friendly adhesive base, is ideal for short-term catheterized patients.

All Hold-n-Place Foley Catheter Holders feature a locking systems that securely anchor the catheter in place, reducing the risk of urethral erosion, bladder spasms and trauma. The locking devices speed up application and simplify adjustment. The holders can be used with equal effectiveness on all Foley catheters including Teflon, silver and silicone coated catheters.

SKU: DA.150

CATHETER HOLDER LEG BAND

The Leg Band, made entirely of stretch material, has a soft, supple backing for added skin comfort. The elasticity and 2" width of the leg band distribute compression evenly around the high to minimize circumferential pressure.

SKU: DA.316

BENDABLE IV ARMBOARD

The Bendable ArmBoard is a simple, cost effective, tapeless, means to position and secure the wrist to prevent unwanted movement when using arterial and peripheral (intravenous) lines. The ArmBoard is covered in a soft comfortable material and is fastened to the arm with adjustable hook and loop straps. The ArmBoard can be custom shaped to any position.

It can be used in the Operating Room, Recovery Room, ICU, Patient Care Units, and more.

SKU: DA.650

IV ARMOR

Midmed's IV-ARMOR minimizes downstream occlusions while enabling patient movement. The flexible protective overlay is the ideal way to maximize IV patency while protecting the site from patient tampering. It has several benefits including reducing the introduction of infection associated with IV reinsertion, and reducing downstream occlusion alarms. The IV-ARMOR also reduces risk of catheter kinking in a bend such as a wrist or elbow, and reduces risk of catheter movement in an area of bony prominence, such as back of hand or forearm. IV-ARMOR uses skin-friendly adhesive, and comes in a one size fits most box of 10.

Plastic Tee-Connector, Single Patient (must be purchased in Multiples of 10). Used with the BreathTracker.

SKU: QT.00850-P

DISCARD BAG

This disposable polyethylene bag is used to separate the “dead-space” air from alveolar air which goes into the Collection Bag.

Mouthpiece, 20mm, Blue, Moulded (must be purchased in Multiples of 10). Used with the BreathTracker.

SKU: QT.00843-P

DISPOSABLE MOUTHPIECES

Mouthpieces are inexpensive enough to be disposable, but they can be cleaned, disinfected and reused if desired.

Mouthpiece, 20mm, Blue, Moulded (must be purchased in Multiples of 10) Used with the BreathTracker.

SKU: QT.00991-P

QUINTRON BREATHTRACKER SC

The ability to analyse H₂, CH₄ and CO₂ provides physicians with necessary information to confidentially diagnose carbohydrate malabsorptions and/or small intestinal bacterial overgrowth (SIBO).

The BreathTracker SC analysers trace-gas concentrations of hydrogen (H₂), methane (CH₄) and carbon dioxide (CO₂) in a patient's alveolar breath sample using solid-state sensors. The results are measured and displayed in parts per million (ppm) for H₂ and CH₄ and percent (%) for CO₂. The BreathTracker SC also utilise an added feature for sample contamination detection and correction based on CO₂ measured in patient samples.

PRO-CARE AUTO BARIATRIC

Alternating pressure redistribution system — improving pressure relief delivery and experience for bariatric care.

With a maximum weight capacity of 450 kg (992 lb) and rectangular-shaped air cells that increase the contact surface area and redistribute pressure efficiently, Pro-care Auto Bariatric provides optimal pressure relief care, comfort, and pressure injury prevention support. Caregivers can easily access and adjust settings through the pump's intuitive digital interface, including operating pressure setting modes (alternating, static, max firm, and seat inflating), weight guidance, cycle times, and alarms.

SKU: WE.9C087010

LIFT AND TRANSFER

Bari Lift and Transfer™ Bedside assists and enhances patient mobilization while reducing workers' compensation claims associated with patient handling. This transfer system is the most versatile lift system available, designed to help patients out of bed and into a wheelchair or shower/commode chair. Bari Lift and Transfer allows lifting from the floor level and creates a safe environment to properly transfer the patient while protecting care providers from injury. Available options include built-in scales and multiple sling types to choose from, including commode slings.

SKU: SW.38060000/27000295

PRO-CARE TURN - LATERAL TURNING MATTRESS

A Turning Point for Better Patient Care

- Suitable for patients in medium to high risk of pressure injuries
- 30° of lateral turning therapy to enhance pressure relief
- 3-in-1 therapy available for individual healthcare plans with effortless patient repositioning
- Designed for use in the acute sector

OVERNIGHTER RECLINER

Founded on a strong steel frame, the 526 Overnighter Series patient chair is a hard-working sleeper that provides the greatest possible level of comfort to overnight patients. Mobile and impressively flexible given its size, the 526 has high-quality casters that make transport easy and non-intrusive.

It's open space, all-in-one design helps reduce claustrophobic sensations often caused by constant sitting. The quality foam and fabrics of the 526 Series make for real comfort, as well as a better-looking and longer-lasting product. Maximize patients' comfort by helping them choose between three positions. Years of research and testing have gone into the perfection of the Overnighter Series. It's specially designed to ensure that each has every opportunity to get a good night's sleep, whatever their medical situation.

Available with manual and power options in a wide range of colours.

EKOMPACT CHAIR

Promotal conducted the largest ever survey of medical examination furniture with 200 doctors from 6 European and Middle East countries. This allows us to develop adapted products with a high added value.

eKompact is currently the most suitable height-adjustable examination table for healthcare professionals and their environment. In addition to its sitting position, its storage and integrated retractable stirrups allow you to perform a complete examination on a 1m³ table. It becomes a real assistant for the patient and the practitioner by adapting to their morphology and preferences thanks to the ability to record favourite positions and its autonomous movements.

Promotal has designed the iQuest sofa with a sleek and airy design that will improve your comfort and that of your patients with its safe, all electric movement including height, backrest, trendelenburg / reverse trendelenburg.

SKU: PR.3050

OPTIMA AUTO

Reducing pressure injuries for long-term care — Increasing skin activity and improving blood circulation with alternating pressure.

On average, 65 per 1000 adult inpatients develop pressure injuries (also known as pressure ulcers) and require 18 in-hospital days. That's 2.5 times that of an average acute inpatient. Financially, treating PU sets families back by USD 15,700 to USD 17,700. Since 87% are elderly patients, an ageing population and COVID-19 accelerates PU prevalence, exhausting global human, material, and capital reserves.

SKU: N/A

PRO-CARE AUTO

Alternating pressure redistribution system — improving long-term care experience with auto-adjusting support surface pressure.

Pro-care Auto simplifies long-term pressure injury care and improves prevention and patient comfort with auto-adjustment of air cell firmness based on the patient's weight, low and moderate pressure alternation settings, and layered air cell design in the torso section (static, firm air cells under pressure-setting-controllable air cells) reinforces support and comfort during sitting.

SKU: WE.9C087A09

OPTIMA TURN

Reducing patient handling complexity and patient discomfort — Improving repositioning feasibility and pressure ulcer prevention.

Over 670,000 hospital-acquired pressure injuries occur annually in the United States, with an institutional cost exceeding USD 11.5 million. Pressure ulcers significantly increase inpatient mortality and prolong inpatients' length of hospital stay by 7 to 11.2 days. Treatment costs over USD 130,000 per inpatient (stage IV) and quickly accumulates due to the high readmission rate within 30 days after discharge.

SKU: N/A

PRO-CARE AUTO BARIATRIC

Alternating pressure redistribution system — improving pressure relief delivery and experience for bariatric care.

With a maximum weight capacity of 450 kg (992 lb) and rectangular-shaped air cells that increase the contact surface area and redistribute pressure efficiently, Pro-care Auto Bariatric provides optimal pressure relief care, comfort, and pressure injury prevention support. Caregivers can easily access and adjust settings through the pump's intuitive digital interface, including operating pressure setting modes (alternating, static, max firm, and seat inflating), weight guidance, cycle times, and alarms.

SKU: WE.9C087010

SAPPHIRE 1100™

Sapphire 1100™ combines clinically effective low air loss with 1-in-3 alternation in a complete mattress replacement system. The alternating cycle time is adjustable from 3 to 20 minutes in increments of one minute.

Sapphire 1100 features high strength air cells that are vented to provide low air loss therapy. This keeps the patient dry and comfortable, whether in alternation or static modes of operation. The air cells rest on a covered foam safety pad for added patient protection during power outages or patient transfer. This pad is covered with material that eliminates cross contamination of bodily fluids. The quilted top cover is highly vapor permeable and completely machine washable. The entire system is portable and fits on most standard medical bed frames.

Additional features include: “Static” for stationary low air loss therapy, “Fowler” to boost seat inflation when the head is elevated, “Auto Firm” for rapid inflation and easy patient transfer, “Lockout” to maintain caregiver settings without accidental interruptions, “Low Pressure” and “Power Failure” audible / visual alarms, and “Self-Diagnostic Check” to quickly assess all switches and sensors for proper calibration and operation.

UP TREATMENT CHAIR

Thanks to an advanced geometric solution, the “leg” section disappears under the seat. This allows the patient to sit on the chair with the lower limbs perfectly perpendicular to the seat itself. Comfort and postural benefits will derive from this position. Therefore, all patients, even those with motor difficulties, can easily sit down and get up from the chair, even from the front, always with a correct posture. UP chair facilitates the patient’s exit with a correct postural approach. Backrest, seat and leg sections move simultaneously and automatically, raising the patients a semi-erect position according to their height. The device is equipped with three memory functions indeed, each of these positions facilitates the exit of patients according to their size. The following images represent an example of the Patient’s “Lift” or Verticalization function.

SKU: GB.UP

SMART XTRACTSR STRETCHER

The Smart XtractSR Stretcher provides safe and rapid casualty extraction from hazardous locations, reducing exposure to hostile locations and secondary injury.

This stretcher is extremely robust despite its lightweight material: it weighs less than 1.5 kg in total and can safely carry up to 300 kg in weight. It can be carried in operational equipment, making it the most convenient and easy-to-use stretcher for rescuers and patients in temperamental weather or terrain conditions.

SKU: TS.72121

SMART TRIAGE PACK

SKU: TS.73212-AUS

SMART COMMANDER

The SMART Commander is a triage system designed for the structured response and management of multiple casualty incidences. It is sized to fit your arm, allowing you to move around the scene and providing you with a solid surface to write on. The waterproof control boards can be written on with a sharpie marker, providing a durable record of actions on scene that can be cleaned post incident with alcohol based cleaner or wipes. It is built for mass casualty environments, as the rugged pack is suitable for all weather and environmental conditions. The SMART Commander features all of the essential scene management and response tools.

SKU: TS.73211

SMART TRIAGE BAG

The SMART T.R.I. Pack has been designed around the equipment most frequently selected to address immediately life threatening conditions typical at a multiple casualty incident. Whether you are looking to ensure MUCC Compliance or improve your ability to respond to multiple trauma patients the SMART T.R.I. Pack will help you ensure you have the right equipment in the right place at the right time.

Guided by customer feedback and data from recent incidents, we have designed the SMART T.R.I. Pack to be a valuable resource to the responder, providing them with the space for medical equipment such as trauma dressings, airways and chest seals, without the need to take a complete trauma bag into the scene. This allows the delivery of Rapid Life Saving interventions at point of wounding.

SKU: TS.TRI-PK-AUS

SMART MCI BAG

Midmed's SMART Triage products offer the definitive collection of items that all triage professionals need. In high-pressure emergency situations that call for triage, you can feel secure in calling on their products to seamlessly aid your decision-making process and save you valuable time. TSG have developed their incredible resources with the express aim of giving you quick, easy access to key information.

As an all-inclusive emergency kit, the SMART MCI Bag™ represents this aim most comprehensively. It's a complete grab bag. Ideal for use at large planned events where emergency help is needed, the SMART MCI Bag™ will provide the perfect base for your medical command post and is capable of treating up to 80 casualties.

SMARTSAFE VALUABLE STORAGE BAGS

SKU: TS.7325(0/1)

X8T TOURNIQUET

The X8T, with its unique MED™ (Maximum Efficiency Dial™) Technology, enables the application of the tourniquet in eight seconds. Apply, pull, and turn the dial. Deploy in any situation, including on the move.

SKU: N/A

COMPRESSED GAUZE

Responder Gauze takes care of moderate to severe wounds involving heavy blood loss. Made with high quality cotton for maximum absorption and stability. Responder Gauze is vacuum packed small for easy storage yet expands to cover large wound areas. It is the perfect companion to our compression bandages to stop severe blood loss and save lives.

SKU: F.2223040.A

FOXSEAL VENTED

Foxseal™ Vented is a unique 360° Hyper-Vent system and the first ever chest seal with 512 vents¹ giving you more ways to release pressure, prevent blockages and save a life.

SKU: MT.FG08814601

RESPONDER COMPRESSOR BANDAGE

The FareTec Responder Compression Bandages are designed for quick and easy application by caregivers to provide effective, multi-functional treatment in emergencies. The bandages are sterile, non-adherent pads that apply pressure to any site and are easily wrapped and secured. They restrict blood flow to aid in the treatment of traumatic bleeds. Available in three sizes: 4 inch, 6 inch and 8 inch widths.

SKU: F.222109(6/8)

COMPRESSION DRESSING

The Emergency Compression Dressing (ECD) is the newest addition to our established line of bandages. It provides a quick response and secure compression around large wounds. The center red hook patch allows for easy application and holds the 8" x 10" pad in place until responders can relocate the patient for further care. Thanks to our patented manufacturing process, the ECD also features an improved ABD pad and latex-free elastic wrap. The product is sterile until opened and is not made with natural rubber latex.

SKU: HH.

MINI COMPRESSION BANDAGE

Perfect for use in all situations, especially on children and elderly with thin limbs. The Mini Compression Bandage provides a fast, effective tool for many kinds of traumas and injuries (particularly those involving arterial bleeding in extremities).

SKU: HH.-2

H-BANDAGE COMPRESSION DRESSING

The H-Bandage is the latest in Universal Severe Trauma Dressings. An upgrade to our patented combat dressing Cinch Tight, the H-Bandage gives medics and field personnel both an emergency dressing and a hemostat for arterial bleeding and hemorrhaging in limbs. The H-Bandage's unique design allows for one-handed use under any condition. Designed for First Responders, Military, and Law Enforcement, the H-Bandage provides a fast, effective tool for all kinds of serious traumas and injuries involving arterial bleeding.

The unique design of the H-Bandage, with its 8" thick ABD pad and the unique 5 foot elastic wrap designed for both strength and flexibility along with the H-shaped cinch sewn into the bandage, allows it to satisfy multiple field needs. The H-shaped cinch allows for direct pressure to be applied directly on top of a wound, increasing compression and reducing blood loss.

SKU: HH.-3

WATERJEL FIRE SERVICE KIT

SKU: SKU: SG.B-BK-SM-WJE

WATERJEL AMBULANCE BURN KIT

SKU: SG.B-BK-LG-WJE

WATERJEL CRITICAL BURN KIT

Easy to carry burn kit. Same size as the Small Soft-Sided Kit, but developed for critical care situations with burnt hands. This kit has two hand burn dressings. The bag is red for fast recognition and visibility. Only kit sold in a red bag; only kit with hand dressings.

SKU: SG.B-BKCK-SM-WJE

SMALL EMERGENCY BURN STATION

This wall-mounted burn station is ideally suited for restaurants and small businesses. Simply place the station near a kitchen or coffee station where burn accidents are most likely to occur.

SKU: EBSSHA

BURN BLANKET - CANISTER 8" X 6"

A full size blanket that adequately covers a patient and can be used to extinguish flames and smoldering clothes. The plastic container has a handle for convenient transport.

SKU: G9672C-1.00.000

FIRE BLANKET - CANISTER 5' X 6'

A full-size, single use blanket that adequately covers most adults that can be used to extinguish flames and smoldering clothes. The plastic container has a handle for convenient transport.

SKU: G7260C-1.00.000

BURN WRAP - CANISTER 3' X 2.5'

The smallest and most versatile of the single use fire blankets. Can be used to extinguish flames and smoldering clothes. Ideal for covering torso, leg or entire back injuries. Easily carried in a durable plastic container that can be stored.

SKU: G3630C-1.00.000

WATERJEL HAND DRESSING 20 X 55CM

A burn dressing specifically designed for use on hand burns. This unique dressing features a special design to wrap between fingers to prevent fusing and completely wraps the hand to cool and protect it from contamination.

SKU: SG.B0820.

BURN DRESSING 8" X 18"

Our largest burn dressing. Excellent for covering sizeable areas such as the thigh, shoulder or back. Large enough to wrap around the bottom portion of the leg or the thorax area.

SKU: B0818-1.00.000

BURN DRESSING 4" X 4"

A small square-shaped dressing designed to fit the palm of the hand. Also good for the back of the hand, near the knuckles.

SKU: B0404-1.00.000

BURN DRESSING 2" X 6"

A conveniently sized dressing designed to wrap around the wrist and between the fingers to keep them separated. Also for the inner arm, foot instep, or areas where this size dressing would be suited.

SKU: B0206-1.00.000

FIRE BLANKET - POUCH 5' X 6'

A full-size, single use blanket that adequately covers most adults that can be used to extinguish flames and smoldering clothes. Conveniently packaged in a flat, durable foil pouch that is easily stored.

SKU: G7260P-1.00.000

BURN DRESSING 4" X 16"

A well-suited dressing for the inner or outer area of the forearm. Can also be used on a portion of the leg or to wrap a foot.

SKU: B0416-1.00.000

BURN WRAP - POUCH 3' X 2.5'

The smallest and most versatile of the single-use fire blankets. Can be used to extinguish flames and smoldering clothes. Ideal for covering torso, leg or entire back injuries. Conveniently packaged in a flat, durable foil pouch for use in first aid kits.

Directions for use clearly defined on pouch label.

Shelf Life: 5 years from date of manufacture.

SKU: G3630P-1.00.000

WATERJEL FACE DRESSING 30 X 40CM

A unique dressing specifically designed to conform to any size adult or child's face. Large enough to protect the entire face, ears, neck and part of the head. With nose, mouth and eye slits and eyelid flaps.

SKU: SG.B1216.

TACTICAL FIRE BLANKET (CANISTER)

Water-Jel 183 x 152 cm large, tactical burn blanket in a canister. The durable, easily identifiable canister protects the blanket from outside elements and is designed for use on large burns. The plastic container with handle can be stored.

SKU: MC7260

TACTICAL FIRE BLANKET (POUCH)

Water-Jel gel-soaked 183 x 152 cm burn wrap in a pouch. A full-size blanket that adequately covers a burn person and can be used to extinguish flames and smoldering clothes or dangerous white phosphorous.

SKU: MP7260

TACTICAL BURN WRAP BLANKET (CANISTER)

The durable canister protects the blanket 91 x 76 cm from outside elements and is designed for use on partial area burns or smaller fires. Can be stored in tighter quarters.

SKU: MC3630

TACTICAL BURN DRESSING 49X28 CM

Water-Jel sterile gel-soaked 49x28 cm tactical burn dressing for immediate use on burns. This new multifunction design has specially designed cuts to allow conformance to burns on the hands, face, or flat surfaces.

SKU: WJ70

TACTICAL BURN DRESSING 25X45 CM

Water-Jel sterile gel-soaked 25x45 cm tactical burn dressing for immediate use on burns. This new multifunction design has specially designed cuts to allow conformance to burns on the hands, face, or flat surfaces.

SKU: WJ50

TACTICAL BURN DRESSING 10X40CM

Water-Jel sterile gel-soaked 10x40cm tactical burn dressing for immediate use on burns. A well-suited dressing for the inner or outer area of the forearm. Can also be used on a portion of the leg or to wrap a foot. Used in first aid survival kit used by military personnel

SKU: WJ30

TACTICAL BURN DRESSING 10X10CM

Water-Jel sterile gel-soaked 10x10 cm tactical burn dressing for immediate use on burns. A small square-shaped dressing designed to fit the palm of the hand, a commonly burned area, or the back of the hand, near the knuckles.

SKU: WJ10

DECON / HAZMAT SLED

The Med Sled® Decon/Hazmat Sled ensures easy movement of a non-ambulatory person through the Decon Shower process and safely transports to a cleared zone. (Not used for vertical evacuation.)

SKU: MS.36DC

VERTICAL LIFT RESCUE SLED

The Med Sled® Vertical Lift Rescue Sled provides all of the functionality of conventional CASEVAC/Tactical Evacuation Care methods with a less complicated, more durable system, all for a great price.

SKU: MS.36VL

STANDARD EVACUATION SLED

When timing is critical, the Med Sled® Evacuation Sled enables a person to evacuate another person out of a single-story building or down a stairwell of a multi-floor building. Stairwell braking system included on every sled. Evacuations - Made Easier.

EXTRA ERGOLIFT STAIR CHAIR

Extra Ergolift is the powered version of the Extra track assisted stair chair with the same main structural features. The real innovation of Extra Ergolift is given by the electric motor that moves the tracks up and down the stairs without any effort by the operator. The motor is activated by a wireless console. The battery ensures a high autonomy and, in case of sudden discharging, this device will allow you to safely complete the service.

Extra Ergolift loads up to 200 kg in powered transport configuration and 230 kg in manual transportation. It can be used under rain or adverse weather conditions.

SKU: MR.671

COMBICARRIER® II

The CombiCarrier® II is the simplest and most ergonomic backboard on the market.

Working as a fully functional spinal immobilisation device, as well as a scoop stretcher and backboard, it allows for safe, easy extrication of injured patients. Its updated version further improves the inimitable 2-in-1 design of the original, and brings it fully up to date with a thinner, lower profile, allowing the whole board to fit inside all standard storage compartments.

Design is everything with the CombiCarrier® II. The concave surface ensures patients' lateral support and comfort, and its clear centre section makes it completely X-ray compatible, providing a clear view of the patient's spine. It comes with four restraint straps, but no pesky bits and pieces like rivets or screws. Just a clean, minimal, brilliant design.

Its simple intuitive design minimises the training requirements of EMS and hospital personnel, and its lower profile fits in standard storage compartments. Start using a CombiCarrier® II now to make the extrication of patients easier. The revolutionary medical equipment saves on maintenance and replacement costs.

SMART XTRACTSR STRETCHER

The Smart XtractSR Stretcher provides safe and rapid casualty extraction from hazardous locations, reducing exposure to hostile locations and secondary injury.

This stretcher is extremely robust despite it's lightweight material: it weighs less than 1.5 kg in total and can safely carry up to 300 kg in weight. It can be carried in operational equipment, making it the most convenient and easy-to-use stretcher for rescuers and patients in temperamental weather or terrain conditions.

SKU: TS.72121

EVAC-U-SPLINT MATTRESS

The Evac-U-Splint vacuum mattress provides fast, effective and comfortable immobilization for the entire patient. Molding to the specific contours of the patient's body without applying pressure, the vacuum mattress reduces pressure point tenderness. Both the adult and pediatric Evac-U-Splint mattresses have large padded handles secured to the perimeter of the mattress which provide improved security when moving and transferring a patient and also allow for rescuers to share handles when handing off a patient in tight quarters. The Evac-U-Splint Pediatric Mattress holds a child securely and comfortably, which reduces their anxiety during transport, resulting in less patient movement. Both mattresses are filled with thousands of polystyrene beads which act as a thermal insulator to help maintain the patient's core body temperature.

For injured extremities, broken bones and fractured limbs, you need the most durable, reliable and stabilizing equipment for your patients. The Evac-U-Splint Mattress provides fast and effective immobilization for your patients. It molds to the specific contours of the patient's body without applying any pressure, reducing the discomfort and anxiety of the patient. This innovative splint is also MRI and X-Ray compatible, meaning a patient does not need to be removed if it is unsafe to do so.

SKU: HM.MT3075-6

BINDER LIFT

All Binder Lift Products are made in the USA and come with a 5-year manufacture warranty. Each device has an expected use life of 10+ years. Attaches handles to the patient from the bathroom floor all the way to the hospital bed with one simple product.

SKU: BL.

BANANA SLIDES

The GBUK Banana Single Patient Tubular Slides are strong and durable with a high slip performance. It has a strong, red, hemmed slide sheet and a silicone coat on both sides. With a low profile seam, they are long-lasting and have high-slip characteristics, enabling easy and safe patient transfers and re-positioning. They are available in two sizes: 72 cm by 72 cm and 100 cm by 200 cm.

SKU: EGT

MEGAMOVER® TRANSPORT UNIT

The MegaMover offers a great solution for transporting patients from tight, confined areas that are inaccessible to stretchers. The unit has 14 handles for ergonomic lifting, and can hold up to 450 kg (1,000 pounds). It is 80" (203 cm) x 40" (101 cm), and made of durable, latex-free non-woven/poly material.

The MegaMover Transport Unit is **not** designed for use when there is need for spinal stabilisation or traction of the patient being transported. It is recommended to use at least four people to provide safe transport/transfer, thus reducing the possibility of accident or injury.

SKU: 65459

WRASFER™ TRANSFER SHEET

The WRASFER™ Patient Transfer wrap sheet is designed for swiftly and hygienically transporting immobile or injured patients in high-pressure emergency situations. WRASFER™ disposable patient wrap and transfer sheet is designed for use in paramedic services, hospital emergency wards and operating theatres, in situations where fluids need to be easily absorbed.

With a fluid absorption capacity of 5 litres and a max. carrying weight of 200 KG, WRASFER™ is an extremely versatile product. It addresses four critical issues: contamination control, cleaning time/ costs, ambulance turnaround times, and patient transfer.

SKU: WRASFER

PORTABLE SURGICAL TABLE

Midmed stocks the Portable Surgery Table (PST), a patient transport and operation platform. Field tested and outfitted with the most advanced materials available, this unit can serve a multitude of purposes. The PST quickly assembles into a stable patient aid platform for medics and doctors. The device is versatile and easy to transport for fast changing scenarios.

SWIFI TRANSFER CHAIR

Swifi® was designed exclusively for a hospital environment: greater rigidity and a longer life span, easy manoeuvrability and a large range of accessories including Swing IV®, an exclusive system of rotating IV pole.

Swifi® is a transfer chair with an ultra modern and welcoming design that contributes to reducing patient anxiety on arrival at a hospital. The patient's intimacy is respected when manipulating the footrest due to its bilateral control. The Swifi® transfer chair allows easy access for all patients, notably reduced mobility or corpulent patients. A patient weight capacity of 200kg, an open-sided seat, swing-back armrests and a sliding footrest ensure both lateral and frontal access comfortably.

SKU: PR.30130-02

TWEEGY TRANSFER CHAIR

Entirely configurable and accessorizable, the Tweegy evolves and will evolve with your needs!

The Promotal Tweegy is the simplest transfer chair ever designed. Small, slot-in and very simple to use, Tweegy is the solution that facilitates your transfers and eases the organisation for all. Entirely configurable and accessorizable, the Tweegy evolves and will evolve with your needs.

SKU: PR.50140-01

BARIATRIC SHUTTLE B CHAIR

The Shuttle B Series™ Advanced is the ultimate transitional item designed for use in conjunction with rehabilitation, examination and transportation. Whether in stretcher or chair position, this fully electric product accommodates weight capacities up to 455kg. The Shuttle B Series Advanced transforms with the touch of a button from stretcher to chair position and is perfect for use with a lateral transfer device to assist with ambulating a patient. The seat assist function is complete with ambulation poles for the safety and confidence of the patient and care provider.

SKU: SW.31060000

CT7 FEMORAL TRACTION SPLINT

After 2 years of development, the next-generation CT-7 is finally available. It has been tested under the harshest conditions around the world by an array of first responders and medics. The CT-7 femoral traction splint has been simplified by removing straps, velcro and all loose ends. It has a smaller footprint and no longer extends beyond the patient's foot. It has been made more rigid and indestructible with thicker carbon tubes. The traction mechanism is easy, fast and precise by utilizing an acme threaded polycarbonate rod system.

SKU: F.1126629

PELVIC BINDER

Simple, Fast, Easy – PelvicBinder® for pelvic fracture stabilization. Pelvic Binders are an essential piece of a multidisciplinary approach which has been shown to save lives in a case of a pelvic fracture.

- Radiolucent
- MRI Compatible
- Latex Free
- Made in the U.S.A.

The Adult Standard PelvicBinder is double the width and length of the Pediatric PelvicBinder. The Pediatric Pelvic Binder is designed for Hip Circumferences ranging between 14" to 32".

SKU: PB.Y-3000

EVAC-U-SPLINT MATTRESS

The Evac-U-Splint vacuum mattress provides fast, effective and comfortable immobilization for the entire patient. Molding to the specific contours of the patient's body without applying pressure, the vacuum mattress reduces pressure point tenderness. Both the adult and pediatric Evac-U-Splint mattresses have large padded handles secured to the perimeter of the mattress which provide improved security when moving and transferring a patient and also allow for rescuers to share handles when handing off a patient in tight quarters. The Evac-U-Splint Pediatric Mattress holds a child securely and comfortably, which reduces their anxiety during transport, resulting in less patient movement. Both mattresses are filled with thousands of polystyrene beads which act as a thermal insulator to help maintain the patient's core body temperature.

For injured extremities, broken bones and fractured limbs, you need the most durable, reliable and stabilizing equipment for your patients. The Evac-U-Splint Mattress provides fast and effective immobilization for your patients. It molds to the specific contours of the patient's body without applying any pressure, reducing the discomfort and anxiety of the patient. This innovative splint is also MRI and X-Ray compatible, meaning a patient does not need to be removed if it is unsafe to do so.

SKU: HM.MT3075-6

FASPLINT EXTREMITY SPLINT

The FASPLINT is an innovative type of extremity vacuum splint that contours around the injured area, evacuates air and molds perfectly around the damaged extremity. From dislocated shoulders to angulated wrist fractures, simply grab your vacuum splint, place it around the injured area, evacuate the air, and you're done! And if equipment retrieval is a major factor facing your department, then the FASPLINT is ideal. It is easy-to-use and lightweight to carry, making it the simplest kind of splint to use in the event of a medical emergency.

SKU: HM.FS80

EVAC-U-SPLINT

The Evac-U-Splint provides a solution for almost every conceivable splinting situation. From dislocated shoulders to angulated wrist fractures, simply grab your vacuum splint, form it around the injured area, evacuate the air and you're done! You can be transporting your patient to the hospital while other rescuers are still bending, padding, and struggling to apply traditional fixation splints. Versatile and adaptable, the number of uses for the Evac-U-Splint is limited only by the creativity of the rescuer.

It is a very effective and reliable medical extremities splint. This device extracts the air in order for the material to mold around the injured limb and to the exact shape of injury without applying pressure. It is available in a small, medium, and large size.

SKU: EV3000

CT6 FEMORAL TRACTION SPLINT

The CT6 Femoral Traction Leg Splint is a compact, powerful, reliable device that helps relieve pain and prevents further damage to surrounding muscle and tissue while reducing the risk of death caused from severed arteries. It has been designed for pre hospital and patient transport. It is primarily used on patients with mid-line femur fractures. It can be used on adult and pediatric patients and is extremely light, compact and strong.

SMART CBRNE CARD (TRIAGE)

SMART CBRNE Card:

Chemical, Biological, Radiological, Nuclear and Explosive risks (CBRNE). The ideal solution for improving casualty management at scenes suspected to involve nuclear, chemical or biological agents.

SKU: SKU: TS.73221-20

SMART TAPE

SMART Tape is designed specifically for children at a multiple casualty scene. This evidence-based method of assessing patient priority is simple and easy to use in high stress emergency situations. Adult based assessment methods are not suitable for the triage of children. Emotional reaction to an incident with multiple child casualties often sees children being over prioritised.

SMART Tape is specifically designed to assess the severity of pediatric casualties. Triage accuracy using SMART Tape allows for the fast identification of those most critical, both at and away from the scene, and prevents the misdirection of vital triage resources. SUITED for 5 different Age ranges

SKU: TS.73214

SMART TAGS

SMART Tags are highly durable, waterproof and tear-resistant and suited to triage treatment and tracking. With SMART Tags effective triage is quick and simple, allowing the responder to reprioritise the casualty quickly without losing information.

SKU: TS.73215-20

SMART TRIAGE PACK

SKU: TS.73212-AUS

SMART COMMANDER

The SMART Commander is a triage system designed for the structured response and management of multiple casualty incidences. It is sized to fit your arm, allowing you to move around the scene and providing you with a solid surface to write on. The waterproof control boards can be written on with a sharpie marker, providing a durable record of actions on scene that can be cleaned post incident with alcohol based cleaner or wipes. It is built for mass casualty environments, as the rugged pack is suitable for all weather and environmental conditions. The SMART Commander features all of the essential scene management and response tools.

SKU: TS.73211

SMART TRIAGE BAG

The SMART T.R.I. Pack has been designed around the equipment most frequently selected to address immediately life threatening conditions typical at a multiple casualty incident. Whether you are looking to ensure MUCC Compliance or improve your ability to respond to multiple trauma patients the SMART T.R.I. Pack will help you ensure you have the right equipment in the right place at the right time.

Guided by customer feedback and data from recent incidents, we have designed the SMART T.R.I. Pack to be a valuable resource to the responder, providing them with the space for medical equipment such as trauma dressings, airways and chest seals, without the need to take a complete trauma bag into the scene. This allows the delivery of Rapid Life Saving interventions at point of wounding.

SKU: TS.TRI-PK-AUS

SMART MCI BAG

Midmed's SMART Triage products offer the definitive collection of items that all triage professionals need. In high-pressure emergency situations that call for triage, you can feel secure in calling on their products to seamlessly aid your decision-making process and save you valuable time. TSG have developed their incredible resources with the express aim of giving you quick, easy access to key information.

As an all-inclusive emergency kit, the SMART MCI Bag™ represents this aim most comprehensively. It's a complete grab bag. Ideal for use at large planned events where emergency help is needed, the SMART MCI Bag™ will provide the perfect base for your medical command post and is capable of treating up to 80 casualties.

LEO MINOR LED LIGHT

Design innovation meets the latest advancements in LED lighting technology in the Leo Minor® multipurpose LED surgical light. The Leo Minor features a unique patented optical solutions that produces a uniform and homogeneous light pattern with excellent shadow dilution and control. When you combine these features with daylight-like colour rendering and colour temperature, the end result is a true surgical light performance meeting or exceeding IEC requirements.

SKU: SU.LMI-

SL430 LED MINOR SURGICAL LIGHT

The Daray SL430 LED minor surgical light is specifically designed for minor procedures under local anaesthetic in health centres, GP surgeries and outpatient departments. It is ideal for minor surgery, maxillofacial, obstetrics, diagnostics and gynaecology as well as for use within casualty departments and intensive care units. This light is consistent, accurate and cost effective. With great shadow reduction reduction and accurate colour rendering, it is an invaluable tool.

SKU: D.SL430LC

TRI-STAR LED

The Sunnex Tri-Star LED light is excellent for minor surgical and examination applications. The cool, bright light can be easily directed where needed and the caster base allows for easy portability. This light is ideal for medical procedures in environments where space is limited. Additionally, with the telescoping pole, height adjustment in the mobile configuration is possible. Wall configuration offers extensive reach with the innovative arm design. Ideal for outpatient surgery centers, examination and emergency rooms and veterinarian surgical suites.

X340 LED EXAMINATION LIGHT

The Daray X340 examination light is specifically designed for use during medical consultation and for diagnosis. Featuring a wide range of mount options, it ensures excellent placement options. The smooth spring balanced arm and telescopic ceiling tube makes this light extremely versatile. It has an intense beam and excellent colour rendering properties. This light has a low cost of ownership and around 50,000 hours of life, equating to approximately 25 years of clinical use. Requires minimal maintenance.

SKU: D.X340

X200 LED EXAMINATION LIGHT

The Daray X200 examination light range is perfectly suited for use during medical consultations and for diagnosis. With LED technology, this light range provides an intense beam with excellent colour rendering properties. The range has a low total ownership cost and around 50,000 hours of life, equating to approximately 25 years of clinical use. It features a fully enclosed BioProtect head to assist with the management of infection control. Minimal maintenance is required.

SKU: D.X200

X700 LED EXAMINATION LIGHT

The Daray X700 light range are premium quality, powerful and incredibly flexible examination lights, featuring variable colour adjustment. The range is available with a wide range of mount options to ensure your light is exactly where you need it. Additionally, there are two arm options – flexible gooseneck or spring-balanced arm – and a large range of hardwired and plug-top mount options to suit all clinical needs. They have a low cost ownership and around 50,000 hours of life, equating to approximately 25 years of clinical use. These lights are ideal for GP surgeries and clinics where flexibility and performance are crucial.

SKU: D.X740

X400 LED EXAMINATION LIGHT

The Daray X400 examination light is a premium quality, extremely efficient general examination light. With a large diameter light-patch, this light provides excellent illumination. Single-handed lighting control, on/off and variable intensity, can all be controlled from a single switch located next to the light head. A fully enclosed light head and arm system assists with the management of infection control. Available as ceiling, wall and mobile models, this product is a perfect complement to any examination room.

SKU: D.X400

SL180 LED MINOR SURGICAL LIGHT

The Daray SL180 LED minor surgical light features a strong beam of light that has an even intensity across the viewing area. With various mounting options, this light is ideal for gynaecology, A&E departments, day surgery, GP treatment rooms, podiatry, dermatology and other clinical practices. It has variable light intensity and around 50,000 hours of life, equating to approximately 25 years of clinical use. BioProtect anti-microbial solution coats all painted finishes, assisting in infection control. This light is a great complement to any treatment room.

SKU: D.SL180

SL720 LED MINOR SURGICAL LIGHT

The Daray SL720 LED minor surgical light is the newest addition to the range of minor procedure lighting. It is suitable for multiple minor surgical environments including health centres, GP surgeries and maxillofacial departments, as well as within casualty or intensive care. Designed for use in minor procedures, the SL720 provides clean, accurate light where it's needed. Featuring variable colour temperature, it is incredibly versatile and easily adapted to suit your specific needs. The wall and ceiling editions of this light come on spring balanced arms with a large range of movement as standard. This, combined with shadow reduction technology and low running costs, make this light a smart choice for your clinic.

SKU: D.SL720

AMEDA® MYA™ JOY DOUBLE BREAST PUMP

The Mya Joy has been designed with versatile features, safety and comfort, offering the best value for moms who are looking for a convenient pumping experience. Compact, lightweight and quiet, the Mya Joy also features the world's only FDA-cleared pump kit that helps protect breastmilk from contaminants. This pump delivers on the ultimate promise of comfort by offering a wide range of settings, mom-friendly features, and flange sizes. Whether pumping on-the-go, at home or at work, Mya Joy offers pumping without compromise.

SKU: AM.131T22.A

AMEDA MYA® HOSPITAL STRENGTH BREAST PUMP

The Ameda Mya Joy® is a breakthrough hospital-strength portable breast pump that is compact without compromise to help make mom's pumping experience the best it can be. Mya is small, super lightweight, ultra-quiet, and can be operated by a battery. Mya offers moms a convenient, safe, discreet way to provide their babies vital nutrition with a new level of freedom.

SKU: AM.131T22.A-2

PENGUIN NUTRITIONAL WARMER

Going above and beyond just warming breast milk, The Ameda Penguin Nutritional warmer ensure that each feeding is always safely delivered within the ideal human physiological temperature range of 36-37°C, regardless of the starting temperature. A feature which is unique to the Ameda Penguin Warmer is our gentle vibration technology which prevents potential nutritional degradation by continuously stirring the milk throughout the warming cycle for a more even and consistent warming. Our technology then eliminates the need to shake or roll the milk to even out any dangerous hot spots.

SKU: AM.PNW00115AU

FLOWCUP

The Materni flowcup is a simple, convenient accessory for feeding infants who have difficulty sucking.

SKU: MI.MEP

FLOWSPOON

A simple and convenient accessory for safely giving the first breast milk (colostrum).

SKU: MI.MEPAO112

NON-STERILE BABY BOTTLES

Materni bottles are suitable for the hygienic collection and storage of breast milk and the preparation of formula. They are bottle warmer, microwave, dishwasher and freezer safe making them highly versatile. Bottles have a screw on cap to ensure micro-biological cleanliness and have clear volume markings to make milk preparation quick and easy. They are available in four sizes: 50 ml, 80 ml, 120 ml and 240 ml.

SKU: MI.MEPA0109

MILK STORAGE BOTTLES

Ameda Breast Milk Storage Bottles can be used to safely store expressed milk in the fridge or freezer. They are clearly marked to measure your milk, and have space for clear labelling.

- Universal threads - compatible with all standard pump kits and with all Ameda HygieniKit Milk Collection Systems.
- BPA and DEHP free
- Dishwasher and Freezer safe
- Fit with 2-piece lock-tight bottle caps to protect your milk.

SKU: AM.17244

BREAST MILK STORAGE BAGS

For the most simplified pumping and storage process available, pump breast milk directly into Ameda's Store'N Pour™ Breast Milk Storage Bags with compatible Ameda flange adapters. It saves time, hassle and energy, allowing you to speed up the feeding process according to your needs.

SKU: AM.17243

STERILE BABY BOTTLES

Our disposable baby bottles come in a variety of configurations.

SKU: CA.NCB1240A

AMEDA PLATINUM BREAST PUMP

SKU: AM.17805T

MANUAL BREAST PUMP KIT

Breastfeeding can be a wonderful and exciting experience, granting Mother and child the opportunity to bond and share first of many special moments. However, there are times where breastfeeding may not be possible, due to time, space, location or nipple refusal. Breastfeeding can also be overwhelming and exhausting, regardless of whether you're a first time mother or a mother of five. Ameda manual breast pumps are an excellent choice for mothers who pump their breast milk no more than once a day.

SKU: AM.17064M

PSYCHIATRIC BED

The Cranium Psychiatric Bed is designed to be waterproof, chemical resistant and durable while also giving a warm, welcoming and comfortable appearance that is aesthetically appealing. The beds are a seamless, one piece rotationally moulded construction and are ergonomic and stylish in design. With a variety of colour options available, the bed will complement any facility.

LIFT AND TRANSFER

Bari Lift and Transfer™ Bedside assists and enhances patient mobilization while reducing workers' compensation claims associated with patient handling. This transfer system is the most versatile lift system available, designed to help patients out of bed and into a wheelchair or shower/commode chair. Bari Lift and Transfer allows lifting from the floor level and creates a safe environment to properly transfer the patient while protecting care providers from injury. Available options include built-in scales and multiple sling types to choose from, including commode slings.

SKU: SW.38060000/27000295

SAPPHIRE 1100™

Sapphire 1100™ combines clinically effective low air loss with 1-in-3 alternation in a complete mattress replacement system. The alternating cycle time is adjustable from 3 to 20 minutes in increments of one minute.

Sapphire 1100 features high strength air cells that are vented to provide low air loss therapy. This keeps the patient dry and comfortable, whether in alternation or static modes of operation. The air cells rest on a covered foam safety pad for added patient protection during power outages or patient transfer. This pad is covered with material that eliminates cross contamination of bodily fluids. The quilted top cover is highly vapor permeable and completely machine washable. The entire system is portable and fits on most standard medical bed frames.

Additional features include: "Static" for stationary low air loss therapy, "Fowler" to boost seat inflation when the head is elevated, "Auto Firm" for rapid inflation and easy patient transfer, "Lockout" to maintain caregiver settings without accidental interruptions, "Low Pressure" and "Power Failure" audible / visual alarms, and "Self-Diagnostic Check" to quickly assess all switches and sensors for proper calibration and operation.
