68 SERIES BARIATRIC RECLINER

Luxe and stylish, the Ascent II recliner puts a new twist on serious medical seating. The curved top-line of the seatback offers additional headroom while the “wing-back” design adds style and customization options for designers. Standard features, like swing-away arms and a removable seat, aid in meeting infection control goals. The Ascent II is optimal for patient rooms, oncology, infusion therapies, dialysis, pre- and post-operation and other treatment needs.

SKU: CH.68/CH.68P/CH.660

BARIATRIC SHUTTLE B CHAIR

The Shuttle B Series™ Advanced is the ultimate transitional item designed for use in conjunction with rehabilitation, examination and transportation. Whether in stretcher or chair position, this fully electric product accommodates weight capacities up to 455kg. The Shuttle B Series Advanced transforms with the touch of a button from stretcher to chair position and is perfect for use with a lateral transfer device to assist with ambulating a patient. The seat assist function is complete with ambulation poles for the safety and confidence of the patient and care provider.

BARIATRIC LOW BOY BED

When combined with various therapeutic support surfaces, the Bariatric Low Boy can provide alternation, pulsation or rotational with percussion/vibration therapies to accommodate a wide array of patients. The Bariatric Low Boy is also available in a version designed to meet the unique needs of mental health patients. The Bariatric Low Boy is also available in a version designed to meet the unique needs of mental health patients. Available with integrated scale and Rest Assure System as standard features.

SKU: SW.84632W-B

STEPHEN H BARIATRIC TREATMENT CHAIR

The design, providing a high level of comfort for the patient, has been developed to provide a customised solution for the bariatric (high weight) patient care. The chair is able to move patients up to 300 kg. It is a multipurpose chair designed for hospital use during assessment, diagnosis, care and treatment. It is suitable for many different applications and may also be used to transport the patient from one department to another.

The backrest is produced with sufficient stability to carry out CARDIO PULMONARY RESUSCITATION. This medical device, made with stainless materials, represents the “ultimate” solution regarding the elimination of rust, thus significantly reducing the likelihood of bacterial contamination.

SMART XTRACTSR STRETCHER

The Smart XtractSR Stretcher provides safe and rapid casualty extraction from hazardous locations, reducing exposure to hostile locations and secondary injury.

This stretcher is extremely robust despite its lightweight material: it weighs less than 1.5 kg in total and can safely carry up to 300 kg in weight. It can be carried in operational equipment, making it the most convenient and easy-to-use stretcher for rescuers and patients in temperamental weather or terrain conditions.

SKU: TS.72121

COMBICARRIER® II

The CombiCarrier® II is the simplest and most ergonomic backboard on the market.

Working as a fully functional spinal immobilisation device, as well as a scoop stretcher and backboard, it allows for safe, easy extrication of injured patients. Its updated version further improves the inimitable 2-in-1 design of the original, and brings it fully up to date with a thinner, lower profile, allowing the whole board to fit inside all standard storage compartments.

Design is everything with the CombiCarrier® II. The concave surface ensures patients' lateral support and comfort, and its clear centre section makes it completely X-ray compatible, providing a clear view of the patient's spine. It comes with four restraint straps, but no pesky bits and pieces like rivets or screws. Just a clean, minimal, brilliant design.

Its simple intuitive design minimises the training requirements of EMS and hospital personnel, and its lower profile fits in standard storage compartments. Start using a CombiCarrier® II now to make the extrication of patients easier. The revolutionary medical equipment saves on maintenance and replacement costs.

BANANA SLIDES

The GBUK Banana Single Patient Tubular Slides are strong and durable with a high slip performance. It has a strong, red, hemmed slide sheet and a silicone coat on both sides. With a low profile seam, they are long-lasting and have high-slip characteristics, enabling easy and safe patient transfers and re-positioning. They are available in two sizes: 72 cm by 72 cm and 100 cm by 200 cm.

SKU: EGT

MEGAMOVER® TRANSPORT UNIT

The MegaMover offers a great solution for transporting patients from tight, confined areas that are inaccessible to stretchers. The unit has 14 handles for ergonomic lifting, and can hold up to 450 kg (1,000 pounds). It is 80" (203 cm) x 40" (101 cm), and made of durable, latex-free non-woven/poly material.

The MegaMover Transport Unit is **not** designed for use when there is need for spinal stabilisation or traction of the patient being transported. It is recommended to use at least four people to provide safe transport/transfer, thus reducing the possibility of accident or injury.

SKU: 65459

SWIFI TRANSFER CHAIR

Swifi® was designed exclusively for a hospital environment: greater rigidity and a longer life span, easy manoeuvrability and a large range of accessories including Swing IV®, an exclusive system of rotating IV pole.

Swifi® is a transfer chair with an ultra modern and welcoming design that contributes to reducing patient anxiety on arrival at a hospital. The patient's intimacy is respected when manipulating the footrest due to its bilateral control. The Swifi® transfer chair allows easy access for all patients, notably reduced mobility or corpulent patients. A patient weight capacity of 200kg, an open-sided seat, swing-back armrests and a sliding footrest ensure both lateral and frontal access comfortably.

SKU: PR.30130-02

TWEEGY TRANSFER CHAIR

Entirely configurable and accessorizable, the Tweegy evolves and will evolve with your needs!

The Promotal Tweegy is the simplest transfer chair ever designed. Small, slot-in and very simple to use, Tweegy is the solution that facilitates your transfers and eases the organisation for all. Entirely configurable and accessorizable, the Tweegy evolves and will evolve with your needs.
