RESILIENCE MENTAL HEALTH BED

SKU: A.11000

STOR-IT BAG

The SMART Stor-It Reflective Triage Bag is an extremely well organised solution for bulk storage and rapid deployment of medical equipment. Made to the highest specification the Stor-It is designed specifically for disaster and emergency response but has been shown to be highly effective at aide stations during mass gathering events.

The rugged storage system has triple reinforced stitching and exterior padding to protect fragile medical equipment during storage, transport and shipment. It is easy to stack multiple units and the inside divides into two easy to hang sections with highly visible contents.

NOTE: Bag Only

SKU: TS.STOR-IT.

SMARTSAFE VALUABLE STORAGE BAGS

SMARTSAFE small property bags are an effective way of increasing patient comfort and security when they need it most. These bags can be used to store many items, including valuables such as jewellery or medication.

An evident tamper seal and barcode are used to track the bag's location, and for the patient's peace of mind, the barcode is attachable to patient notes. The bags also include a wristband that is to be placed around the patient's wrist. Clearly labelled forms further help identify the belongings of each patient. The bags also include a wristband that is to be placed around the patient's wrist.
