DUCANTO CATHETER™

The SSCOR DuCanto Catheter is a new catheter that is unlike traditional Yankauer suction tips that are designed for controlled surgical settings. The SSCOR DuCanto Catheter was developed with both routine and emergency airway management in mind. It has a larger internal diameter making it significantly less likely to clog and is shaped to fit the oropharyngeal anatomy. The hyper curved catheter is shaped more like a patient's airway making it easy to position the catheter.

Additionally, the SSCOR DuCanto Catheter does not have a thumb port. By removing the vacuum control, the caregiver does not need to locate and continuously occlude the thumb port to clear a patient's airway. This allows continuous suction and keeps hands free.

SKU: SCR.200-00002C

HI-D BIG STICK SUCTION TIP

The SSCOR Hi-D Big Stick Suction Tip aims to combat the most common complaint for those using suction equipment for resuscitation procedures... clogged tips.

SKU: SCR.44241

VX-2® SUCTION UNIT

SKU: SCR.2310

DUET SUCTION UNIT

SKU: SCR.2314-230

QUICKDRAW® PORTABLE SUCTION UNIT

Combining the convenience of handheld suction with the performance of powered suction. The most efficient suction pump you have ever held in your hand. At only 1.2 kg, the SSCOR Quickdraw® is more efficient than the most powerful traditional suction units. It is compact and light enough to fit in an airway bag and be readily transported to the patient's side on every call.

Available in both rechargeable and battery operated variations

DISPOSABLE CURTAINS

Each EcoMed disposable curtain is treated with the 3rd Generation Ultra-Fresh built-in antimicrobial protection.

SKU: EN.

LIFEBOX MEDICAL BOX

The next generation of EMS transport containers is here. The key lies within the Carbon panels that produce insulation values of R50; 2x more powerful than anything else on the market. This allows for more payload space and greater efficiency in both hot and cold environments.

SKU: F.6001024

QINFLOW WARRIOR - BLOOD/FLUID WARMER

SKU: QF.Q211050000SUC

QINFLOW WARRIOR LITE - BLOOD/FLUID WARMER

High performance yet compact and light blood and IV fluid warmer for space and weight constrained rescue gears, first responders, and critical care transports. It has field proven technology and affordable consumables with a unique continuum of emergency care proposition.

SKU: QF.QIF03-BUA1000SUC

WRASFER™ TRANSFER SHEET

The WRASFER™ Patient Transfer wrap sheet is designed for swiftly and hygienically transporting immobile or injured patients in high-pressure emergency situations. WRASFER™ disposable patient wrap and transfer sheet is designed for use in paramedic services, hospital emergency wards and operating theatres, in situations where fluids need to be easily absorbed.

With a fluid absorption capacity of 5 litres and a max. carrying weight of 200 KG, WRASFER™ is an extremely versatile product. It addresses four critical issues: contamination control, cleaning time/ costs, ambulance turnaround times, and patient transfer.

SKU: QF.QIF03-BUA1000SUC

BENDABLE IV ARMBOARD

The Bendable ArmBoard is a simple, cost effective, tapeless, means to position and secure the wrist to prevent unwanted movement when using arterial and peripheral (intravenous) lines. The ArmBoard is covered in a soft comfortable material and is fastened to the arm with adjustable hook and loop straps. The ArmBoard can be custom shaped to any position.

It can be used in the Operating Room, Recovery Room, ICU, Patient Care Units, and more.

SKU: DA.650

IV ARMOR

Midmed's IV-ARMOR minimizes downstream occlusions while enabling patient movement. The flexible protective overlay is the ideal way to maximize IV patency while protecting the site from patient tampering. It has several benefits including reducing the introduction of infection associated with IV reinsertion, and reducing downstream occlusion alarms. The IV-ARMOR also reduces risk of catheter kinking in a bend such as a wrist or elbow, and reduces risk of catheter movement in an area of bony prominence, such as back of hand or forearm. IV-ARMOR uses skin-friendly adhesive, and comes in a one size fits most box of 10.

SMART XTRACTSR STRETCHER

The Smart XtractSR Stretcher provides safe and rapid casualty extraction from hazardous locations, reducing exposure to hostile locations and secondary injury.

This stretcher is extremely robust despite it's lightweight material: it weighs less than 1.5 kg in total and can safely carry up to 300 kg in weight. It can be carried in operational equipment, making it the most convenient and easy-to-use stretcher for rescuers and patients in temperamental weather or terrain conditions.

SKU: TS.72121

SMART TRIAGE PACK

SKU: TS.73212-AUS

SMART COMMANDER

The SMART Commander is a triage system designed for the structured response and management of multiple casualty incidences. It is sized to fit your arm, allowing you to move around the scene and providing you with a solid surface to write on. The waterproof control boards can be written on with a sharpie marker, providing a durable record of actions on scene that can be cleaned post incident with alcohol based cleaner or wipes. It is built for mass casualty environments, as the rugged pack is suitable for all weather and environmental conditions. The SMART Commander features all of the essential scene management and response tools.

SKU: TS.73211

SMART TRIAGE BAG

The SMART T.R.I. Pack has been designed around the equipment most frequently selected to address immediately life threatening conditions typical at a multiple casualty incident. Whether you are looking to ensure MUCC Compliance or improve your ability to respond to multiple trauma patients the SMART T.R.I. Pack will help you ensure you have the right equipment in the right place at the right time.

Guided by customer feedback and data from recent incidents, we have designed the SMART T.R.I. Pack to be a valuable resource to the responder, providing them with the space for medical equipment such as trauma dressings, airways and chest seals, without the need to take a complete trauma bag into the scene. This allows the delivery of Rapid Life Saving interventions at point of wounding.

SKU: TS.TRI-PK-AUS

SMART MCI BAG

Midmed's SMART Triage products offer the definitive collection of items that all triage professionals need. In high-pressure emergency situations that call for triage, you can feel secure in calling on their products to seamlessly aid your decision-making process and save you valuable time. TSG have developed their incredible resources with the express aim of giving you quick, easy access to key information.

As an all-inclusive emergency kit, the SMART MCI Bag™ represents this aim most comprehensively. It's a complete grab bag. Ideal for use at large planned events where emergency help is needed, the SMART MCI Bag™ will provide the perfect base for your medical command post and is capable of treating up to 80 casualties.

SKU: TS.73210-AUS

SMARTSAFE VALUABLE STORAGE BAGS

SKU: TS.7325(0/1)

RESPONDER COMPRESSOR BANDAGE

The FareTec Responder Compression Bandages are designed for quick and easy application by caregivers to provide effective, multi-functional treatment in emergencies. The bandages are sterile, non-adherent pads that apply pressure to any site and are easily wrapped and secured. They restrict blood flow to aid in the treatment of traumatic bleeds. Available in three sizes: 4 inch, 6 inch and 8 inch widths.

SKU: F.222109(6/8)

COMPRESSION DRESSING

The Emergency Compression Dressing (ECD) is the newest addition to our established line of bandages. It provides a quick response and secure compression around large wounds. The center red hook patch allows for easy application and holds the 8" x 10" pad in place until responders can relocate the patient for further care. Thanks to our patented manufacturing process, the ECD also features an improved ABD pad and latex-free elastic wrap. The product is sterile until opened and is not made with natural rubber latex.

SKU: HH.

MINI COMPRESSION BANDAGE

Perfect for use in all situations, especially on children and elderly with thin limbs. The Mini Compression Bandage provides a fast, effective tool for many kinds of traumas and injuries (particularly those involving arterial bleeding in extremities).

SKU: HH.-2

H-BANDAGE COMPRESSION DRESSING

The H-Bandage is the latest in Universal Severe Trauma Dressings. An upgrade to our patented combat dressing Cinch Tight, the H-Bandage gives medics and field personnel both an emergency dressing and a hemostat for arterial bleeding and hemorrhaging in limbs. The H-Bandage's unique design allows for one-handed use under any condition. Designed for First Responders, Military, and Law Enforcement, the H-Bandage provides a fast, effective tool for all kinds of serious traumas and injuries involving arterial bleeding.

The unique design of the H-Bandage, with its 8" thick ABD pad and the unique 5 foot elastic wrap designed for both strength and flexibility along with the H-shaped cinch sewn into the bandage, allows it to satisfy multiple field needs. The H-shaped cinch allows for direct pressure to be applied directly on top of a wound, increasing compression and reducing blood loss.

SKU: HH.-3

DECON / HAZMAT SLED

The Med Sled® Decon/Hazmat Sled ensures easy movement of a non-ambulatory person through the Decon Shower process and safely transports to a cleared zone. (Not used for vertical evacuation.)

SKU: MS.36DC

VERTICAL LIFT RESCUE SLED

The Med Sled® Vertical Lift Rescue Sled provides all of the functionality of conventional CASEVAC/Tactical Evacuation Care methods with a less complicated, more durable system, all for a great price.

SKU: MS.36VL

STANDARD EVACUATION SLED

When timing is critical, the Med Sled® Evacuation Sled enables a person to evacuate another person out of a single-story building or down a stairwell of a multi-floor building. Stairwell braking system included on every sled. Evacuations - Made Easier.

SKU: MS.28, MS.36, MS.48

TACTICAL RESCUE SLED

SKU: MED.MS30

COMBICARRIER® II

The CombiCarrier® II is the simplest and most ergonomic backboard on the market.

Working as a fully functional spinal immobilisation device, as well as a scoop stretcher and backboard, it allows for safe, easy extrication of injured patients. Its updated version further improves the inimitable 2-in-1 design of the original, and brings it fully up to date with a thinner, lower profile, allowing the whole board to fit inside all standard storage compartments.

Design is everything with the CombiCarrier® II. The concave surface ensures patients' lateral support and comfort, and its clear centre section makes it completely X-ray compatible, providing a clear view of the patient's spine. It comes with four restraint straps, but no pesky bits and pieces like rivets or screws. Just a clean, minimal, brilliant design.

Its simple intuitive design minimises the training requirements of EMS and hospital personnel, and its lower profile fits in standard storage compartments. Start using a CombiCarrier® II now to make the extrication of patients easier. The revolutionary medical equipment saves on maintenance and replacement costs.

SKU: HM.CC2200PY

SMART XTRACTSR STRETCHER

The Smart XtractSR Stretcher provides safe and rapid casualty extraction from hazardous locations, reducing exposure to hostile locations and secondary injury.

This stretcher is extremely robust despite its lightweight material: it weighs less than 1.5 kg in total and can safely carry up to 300 kg in weight. It can be carried in operational equipment, making it the most convenient and easy-to-use stretcher for rescuers and patients in temperamental weather or terrain conditions.

SKU: QF.QIF03-BUA1000SUC

CT7 FEMORAL TRACTION SPLINT

After 2 years of development, the next-generation CT-7 is finally available. It has been tested under the harshest conditions around the world by an array of first responders and medics. The CT-7 femoral traction splint has been simplified by removing straps, velcro and all loose ends. It has a smaller footprint and no longer extends beyond the patient's foot. It has been made more rigid and indestructible with thicker carbon tubes. The traction mechanism is easy, fast and precise by utilizing an acme threaded polycarbonate rod system.

SKU: F.1126629

CT6 FEMORAL TRACTION SPLINT

The CT6 Femoral Traction Leg Splint is a compact, powerful, reliable device that helps relieve pain and prevents further damage to surrounding muscle and tissue while reducing the risk of death caused from severed arteries. It has been designed for pre hospital and patient transport. It is primarily used on patients with mid-line femur fractures. It can be used on adult and pediatric patients and is extremely light, compact and strong.

SKU: F.1126628P

SMART TAGS

SMART Tags are highly durable, waterproof and tear-resistant and suited to triage treatment and tracking. With SMART Tags effective triage is quick and simple, allowing the responder to reprioritise the casualty quickly without losing information.
