## 65 SERIES BARIATRIC RECLINER

The Ascent XL Bariatric Recliner is ruggedly built like our classic recliners, with added style and elegance. Gently contoured lines enhance its profile while comforting patients up to 500 lbs. Standard swing-arms provide easy cleaning, maintenance and patient transfer. Four-inch, twin wheel casters are corrosion resistant and roll with ease.

Suitable for Oncology, Surgery, Infusion, Dialysis Therapies, Orthopedics, Paediatrics, and more.

Purchase the Ascent XL patient chair through Midmed today for an easily transportable, well-designed recliner that always puts comfort first. Available with manual and power options in a wide range of colours.

**SKU:** N/A

## 56 SERIES BARIATRIC RECLINER

**SKU:** CH.56/CH.56P

## 54 SERIES RECLINER

**SKU:** CH.54/CH.54P

## OVERNIGHTER RECLINER

Founded on a strong steel frame, the 526 Overnighter Series patient chair is a hard-working sleeper that provides the greatest possible level of comfort to overnight patients. Mobile and impressively flexible given its size, the 526 has high-quality casters that make transport easy and non-intrusive.

It's open space, all-in-one design helps reduce claustrophobic sensations often caused by constant sitting. The quality foam and fabrics of the 526 Series make for real comfort, as well as a better-looking and longer-lasting product. Maximize patients' comfort by helping them choose between three positions. Years of research and testing have gone into the perfection of the Overnighter Series. It's specially designed to ensure that each has every opportunity to get a good night's sleep, whatever their medical situation.

Available with manual and power options in a wide range of colours.

**SKU:** CH.526

## DISPOSABLE CURTAINS

Each EcoMed disposable curtain is treated with the 3rd Generation Ultra-Fresh built-in antimicrobial protection.

**SKU:** EN.

## SINGLE USE ENFIT SYRINGES

Syringes from 1ml to 50/60 ml for enteral medication, flushing, gastric residuals and breast milk or enteral feeding administration by gravity, bolus or syringe-pump.

**SKU:** N/A

## PENGUIN NUTRITIONAL WARMER

Going above and beyond just warming breast milk, The Ameda Penguin Nutritional warmer ensure that each feeding is always safely delivered within the ideal human physiological temperature range of 36-37°C, regardless of the starting temperature. A feature which is unique to the Ameda Penguin Warmer is our gentle vibration technology which prevents potential nutritional degradation by continuously stirring the milk throughout the warming cycle for a more even and consistent warming. Our technology then eliminates the need to shake or roll the milk to even out any dangerous hot spots.

**SKU:** AM.PNW00115AU

## FLOWCUP

The Materni flowcup is a simple, convenient accessory for feeding infants who have difficulty sucking.

**SKU:** MI.MEP

## FLOWSPOON

A simple and convenient accessory for safely giving the first breast milk (colostrum).

**SKU:** MI.MEPAO112

## BABY BOTTLES

Materni bottles are suitable for the hygienic collection and storage of breast milk and the preparation of formula. They are bottle warmer, microwave, dishwasher and freezer safe making them highly versatile. Bottles have a screw on cap to ensure micro-biological cleanliness and have clear volume markings to make milk preparation quick and easy. They are available in four sizes: 50 ml, 80 ml, 120 ml and 240 ml.

**SKU:** MI.MEPAO109

## STERILE BABY BOTTLES

Our disposable baby bottles come in a variety of configurations.

**SKU:** CA.NCB1240A

## TEATS

Materni teats grow with your baby. That is important, because if the teat is too small your baby will not be satisfied, but if it is too large this can cause choking. So there is **a suitable size for every baby**, for both standard and thicker feeds, so that your baby can drink easily at all times.

**SKU:** MI.MEPA0102

## NASOGASTRIC TUBE HOLDER

The NasoGastric Tube Holder is ideal for holding nasogastric feeding and aspiration tubes, such as Salem Sump, Levin Tubes, and Feeding Catheter Tubes (Dobbhoff). The unique dual interlocking tabs spiral around the nasogastric tube ensuring superior tube security. The non-adherent plastic tips on both tabs make tube removal safer and easier without scissors.

**SKU:** DA.161

## CATHETER HOLDER ADHESIVE PATCH

The Hold-n-Place Adhesive Patch is a skin friendly, breathable adhesive device, versatile enough for all of your indwelling Foley securement needs. The adhesive patch, with a skin-friendly adhesive base, is ideal for short-term catheterized patients.

All Hold-n-Place Foley Catheter Holders feature a locking systems that securely anchor the catheter in place, reducing the risk of urethral erosion, bladder spasms and trauma. The locking devices speed up application and simplify adjustment. The holders can be used with equal effectiveness on all Foley catheters including Teflon, silver and silicone coated catheters.

**SKU:** DA.150

## CATHETER HOLDER LEG BAND

The Leg Band, made entirely of stretch material, has a soft, supple backing for added skin comfort. The elasticity and 2" width of the leg band distribute compression evenly around the high to minimize circumferential pressure.

**SKU:** DA.316

## BENDABLE IV ARMBOARD

The Bendable ArmBoard is a simple, cost effective, tapeless, means to position and secure the wrist to prevent unwanted movement when using arterial and peripheral (intravenous) lines. The ArmBoard is covered in a soft comfortable material and is fastened to the arm with adjustable hook and loop straps. The ArmBoard can be custom shaped to any position.

It can be used in the Operating Room, Recovery Room, ICU, Patient Care Units, and more.

**SKU:** DA.650

## IV ARMOR

Midmed's IV-ARMOR minimizes downstream occlusions while enabling patient movement. The flexible protective overlay is the ideal way to maximize IV patency while protecting the site from patient tampering. It has several benefits including reducing the introduction of infection associated with IV reinsertion, and reducing downstream occlusion alarms. The IV-ARMOR also reduces risk of catheter kinking in a bend such as a wrist or elbow, and reduces risk of catheter movement in an area of bony prominence, such as back of hand or forearm. IV-ARMOR uses skin-friendly adhesive, and comes in a one size fits most box of 10.

**SKU:** DA.675

## 65 SERIES BARIATRIC RECLINER

The Ascent XL Bariatric Recliner is ruggedly built like our classic recliners, with added style and elegance. Gently contoured lines enhance its profile while comforting patients up to 500 lbs.
