GYNAECOLOGY STRETCHER

The Premier Series 4500GYN is Techlem's Gynaecology Stretcher for use in obstetrics and gynaecology. It is equipped with a two-piece sectional, viscolastic mattress. The stretcher is versatile, and boasts supine to full-chair positioning with pneumatic assist for ease of use. It features a sectional, pressure sensitive foam mattress with viscolastic, four-way stretch cover.

SKU: T.4500GYN

DISPOSABLE CURTAINS

Each EcoMed disposable curtain is treated with the 3rd Generation Ultra-Fresh built-in antimicrobial protection.

SKU: EN.

BENDABLE IV ARMBOARD

The Bendable ArmBoard is a simple, cost effective, tapeless, means to position and secure the wrist to prevent unwanted movement when using arterial and peripheral (intravenous) lines. The ArmBoard is covered in a soft comfortable material and is fastened to the arm with adjustable hook and loop straps. The ArmBoard can be custom shaped to any position.

It can be used in the Operating Room, Recovery Room, ICU, Patient Care Units, and more.

SKU: DA.650

IV ARMOR

Midmed's IV-ARMOR minimizes downstream occlusions while enabling patient movement. The flexible protective overlay is the ideal way to maximize IV patency while protecting the site from patient tampering. It has several benefits including reducing the introduction of infection associated with IV reinsertion, and reducing downstream occlusion alarms. The IV-ARMOR also reduces risk of catheter kinking in a bend such as a wrist or elbow, and reduces risk of catheter movement in an area of bony prominence, such as back of hand or forearm. IV-ARMOR uses skin-friendly adhesive, and comes in a one size fits most box of 10.

SMARTSAFE VALUABLE STORAGE BAGS

SMARTSAFE small property bags are an effective way of increasing patient comfort and security when they need it most. These bags can be used to store many items, including valuables such as jewellery or medication.

An evident tamper seal and barcode are used to track the bag's location, and for the patient's peace of mind, the barcode is attachable to patient notes. The bags also include a wristband that is to be placed around the patient's wrist. Clearly labelled forms further help identify the belongings of each patient. The bags also include a wristband that is to be placed around the patient's wrist.

SL430 LED MINOR SURGICAL LIGHT

The Daray SL430 LED minor surgical light is specifically designed for minor procedures under local anaesthetic in health centres, GP surgeries and outpatient departments. It is ideal for minor surgery, maxillofacial, obstetrics, diagnostics and gynaecology as well as for use within casualty departments and intensive care units. This light is consistent, accurate and cost effective. With great shadow reduction and accurate colour rendering, it is an invaluable tool.

SKU: D.SL430LC

X340 LED EXAMINATION LIGHT

The Daray X340 examination light is specifically designed for use during medical consultation and for diagnosis. Featuring a wide range of mount options, it ensures excellent placement options. The smooth spring balanced arm and telescopic ceiling tube makes this light extremely versatile. It has an intense beam and excellent colour rendering properties. This light has a low cost of ownership and around 50,000 hours of life, equating to approximately 25 years of clinical use. Requires minimal maintenance.

SKU: D.X340

X200 LED EXAMINATION LIGHT

The Daray X200 examination light range is perfectly suited for use during medical consultations and for diagnosis. With LED technology, this light range provides an intense beam with excellent colour rendering properties. The range has a low total ownership cost and around 50, 000 hours of life, equating to approximately 25 years of clinical use. It features a fully enclosed BioProtect head to assist with the management of infection control. Minimal maintenance is required.

SKU: D.X200

X700 LED EXAMINATION LIGHT

The Daray X700 light range are premium quality, powerful and incredibly flexible examination lights, featuring variable colour adjustment. The range is available with a wide range of mount options to ensure your light is exactly where you need it. Additionally, there are two arm options - flexible gooseneck or spring-balanced arm - and a large range of hardwired and plug-top mount options to suit all clinical needs. They have a low cost ownership and around 50,000 hours of life, equating to approximately 25 years of clinical use. These lights are ideal for GP surgeries and clinics where flexibility and performance are crucial.

SKU: D.X740

X400 LED EXAMINATION LIGHT

The Daray X400 examination light is a premium quality, extremely efficient general examination light. With a large diameter light-patch, this light provides excellent illumination. Single-handed lighting control, on/off and variable intensity, can all be controlled from a single switch located next to the light head. A fully enclosed light head and arm system assists with the management of infection control. Available as ceiling, wall and mobile models, this product is a perfect complement to any examination room.

SKU: D.X400

SL180 LED MINOR SURGICAL LIGHT

The Daray SL180 LED minor surgical light features a strong beam of light that has an even intensity across the viewing area. With various mounting options, this light is ideal for gynaecology, A&E departments, day surgery, GP treatment rooms, podiatry, dermatology and other clinical practices. It has variable light intensity and around 50,000 hours of life, equating to approximately 25 years of clinical use. BioProtect anti-microbial solution coats all painted finishes, assisting in infection control. This light is a great complement to any treatment room.

SKU: D.SL180

SL720 LED MINOR SURGICAL LIGHT

The Daray SL720 LED minor surgical light is the newest addition to the range of minor procedure lighting. It is suitable for multiple minor surgical environments including health centres, GP surgeries and maxillofacial departments, as well as within casualty or intensive care. Designed for use in minor procedures, the SL720 provides clean, accurate light where it's needed. Featuring variable colour temperature, it is incredibly versatile and easily adapted to suit your specific needs. The wall and ceiling editions of this light come on spring balanced arms with a large range of movement as standard. This, combined with shadow reduction technology and low running costs, make this light a smart choice for your clinic.
