## DENEO TREATMENT CHAIR

The DENE0 treatment chair is a state-of-the-art resource designed to enhance comfort and relaxation during blood sampling procedures. Founded on durable, tested epoxy steel and upholstered with quality foam-based covering, the DENE0 combines functionality with innovative, convenient design.

For optimal patient positioning, there are two lateral polyurethane grips integrated into the DENE0, as well as two fully removable arm rests and a swivel adjusting system. Its one-piece structural makeup means it's fundamentally simple to operate.

There's also the added bonus of the DENE0's impeccable hygiene standards. Its seamless upholstery is covered with an antibacterial agent, and with the chair's removable handles, it's incredibly easy to clean. Enhance the comfort of every patient with the DENE0 treatment chair – a powerful, simple resource founded on medical innovation.

**SKU:** PR.800

## TRANSPORT/GENERAL STRETCHER

The premier Techlem stretcher for Transport and General Use features an integrated oxygen tank holder and patient storage, 5th wheel technology for steering assist, and more than 20 customisable options for design and functionality. The Premier Series 5000 is the preferred stretcher in emergency and trauma centres worldwide, due to its durability and ease of use. It also features a high density foam mattress with conductive cover.

**SKU:** T.5000SAHF

## DUCANTO CATHETER™

The SSCOR DuCanto Catheter is a new catheter that is unlike traditional Yankauer suction tips that are designed for controlled surgical settings. The SSCOR DuCanto Catheter was developed with both routine and emergency airway management in mind. It has a larger internal diameter making it significantly less likely to clog and is shaped to fit the oropharyngeal anatomy. The hyper curved catheter is shaped more like a patient's airway making it easy to position the catheter.

Additionally, the SSCOR DuCanto Catheter does not have a thumb port. By removing the vacuum control, the caregiver does not need to locate and continuously occlude the thumb port to clear a patient's airway. This allows continuous suction and keeps hands free.

**SKU:** SCR.200-00002C

## HI-D BIG STICK SUCTION TIP

The SSCOR Hi-D Big Stick Suction Tip aims to combat the most common complaint for those using suction equipment for resuscitation procedures... clogged tips.

**SKU:** SCR.44241

## **VX-2® SUCTION UNIT**

**SKU:** SCR.2310

## **DUET SUCTION UNIT**

**SKU:** SCR.2314-230

## QUICKDRAW® PORTABLE SUCTION UNIT

Combining the convenience of handheld suction with the performance of powered suction. The most efficient suction pump you have ever held in your hand. At only 1.2 kg, the SSCOR Quickdraw® is more efficient than the most powerful traditional suction units. It is compact and light enough to fit in an airway bag and be readily transported to the patient's side on every call.

**Available in both rechargeable and battery operated variations**

**SKU:** SCR.2403-230

## PYLANT MONITOR - ENDOTRACHEAL TUBE CUFF PRESSURE MANOMETER

**SKU:** INO.IM.100

## DISPOSABLE CURTAINS

Each EcoMed disposable curtain is treated with the 3rd Generation Ultra-Fresh built-in antimicrobial protection.

**SKU:** EN.

## STOR-IT BAG

The SMART Stor-It Reflective Triage Bag is an extremely well organised solution for bulk storage and rapid deployment of medical equipment. Made to the highest specification the Stor-It is designed specifically for disaster and emergency response but has been shown to be highly effective at aide stations during mass gathering events.

The rugged storage system has triple reinforced stitching and exterior padding to protect fragile medical equipment during storage, transport and shipment. It is easy to stack multiple units and the inside divides into two easy to hang sections with highly visible contents.

**NOTE:** Bag Only

**SKU:** TS.STOR-IT.

## SMART MCI BAG

Midmed's SMART Triage products offer the definitive collection of items that all triage professionals need. In high-pressure emergency situations that call for triage, you can feel secure in calling on their products to seamlessly aid your decision-making process and save you valuable time. TSG have developed their incredible resources with the express aim of giving you quick, easy access to key information.

As an all-inclusive emergency kit, the SMART MCI Bag™ represents this aim most comprehensively. It's a complete grab bag. Ideal for use at large planned events where emergency help is needed, the SMART MCI Bag™ will provide the perfect base for your medical command post and is capable of treating up to 80 casualties.

**SKU:** TS.73210-AUS

## SMARTSAFE VALUABLE STORAGE BAGS

SMARTSAFE small property bags are an effective way of increasing patient comfort and security when they need it most. These bags can be used to store many items, including valuables such as jewellery or medication.

An evident tamper seal and barcode are used to track the bag's location, and for the patient's peace of mind, the barcode is attachable to patient notes. The bags also include a wristband that is to be placed around the patient's wrist. Clearly labelled forms further help identify the belongings of each patient. The bags also include a wristband that is to be placed around the patient's wrist.

**SKU:** N/A

## RESPONDER COMPRESSOR BANDAGE

The FareTec Responder Compression Bandages are designed for quick and easy application by caregivers to provide effective, multi-functional treatment in emergencies. The bandages are sterile, non-adherent pads that apply pressure to any site and are easily wrapped and secured. They restrict blood flow to aid in the treatment of traumatic bleeds. Available in three sizes: 4 inch, 6 inch and 8 inch widths.

**SKU:** F.222109(6/8)

## TACTICAL RESCUE SLED

**SKU:** MED.MS30

## QINFLOW WARRIOR - BLOOD/FLUID WARMER

**SKU:** QF.Q211050000SUC

## CT7 FEMORAL TRACTION SPLINT

After 2 years of development, the next-generation CT-7 is finally available. It has been tested under the harshest conditions around the world by an array of first responders and medics. The CT-7 femoral traction splint has been simplified by removing straps, velcro and all loose ends. It has a smaller footprint and no longer extends beyond the patient's foot. It has been made more rigid and indestructible with thicker carbon tubes. The traction mechanism is easy, fast and precise by utilizing an acme threaded polycarbonate rod system.
