DUCANTO CATHETER™

The SSCOR DuCanto Catheter is a new catheter that is unlike traditional Yankauer suction tips that are designed for controlled surgical settings. The SSCOR DuCanto Catheter was developed with both routine and emergency airway management in mind. It has a larger internal diameter making it significantly less likely to clog and is shaped to fit the oropharyngeal anatomy. The hyper curved catheter is shaped more like a patient's airway making it easy to position the catheter.

Additionally, the SSCOR DuCanto Catheter does not have a thumb port. By removing the vacuum control, the caregiver does not need to locate and continuously occlude the thumb port to clear a patient's airway. This allows continuous suction and keeps hands free.

SKU: SCR.200-00002C

HI-D BIG STICK SUCTION TIP

The SSCOR Hi-D Big Stick Suction Tip aims to combat the most common complaint for those using suction equipment for resuscitation procedures... clogged tips.

SKU: SCR.44241

VX-2® SUCTION UNIT

SKU: SCR.2310

DUET SUCTION UNIT

SKU: SCR.2314-230

QUICKDRAW® PORTABLE SUCTION UNIT

Combining the convenience of handheld suction with the performance of powered suction. The most efficient suction pump you have ever held in your hand. At only 1.2 kg, the SSCOR Quickdraw® is more efficient than the most powerful traditional suction units. It is compact and light enough to fit in an airway bag and be readily transported to the patient's side on every call.

Available in both rechargeable and battery operated variations

SKU: SCR.2403-230

COMPACT STRETCHER

Techlem's Premier Series 4500CFS is a highly adaptable, compact stretcher designed to suit your small-space, clinical environment. It provides many features as the 4500, including collapsing side-rails. It's available in narrow and short & narrow, and features a high density foam mattress with conductive cover.

SKU: T.4500CFS

BARIATRIC STRETCHER

The Premier Series 5000BR is a safe, reliable and nimble stretcher equipped with Techlem's 5th wheel technology and high tensile components. The Bariatric stretcher boasts a 750 pound weight capacity. It also features a high density foam mattress with conductive cover.

SKU: T.5000BRSAHF

TRANSPORT/GENERAL STRETCHER

The premier Techlem stretcher for Transport and General Use features an integrated oxygen tank holder and patient storage, 5th wheel technology for steering assist, and more than 20 customisable options for design and functionality. The Premier Series 5000 is the preferred stretcher in emergency and trauma centres worldwide, due to its durability and ease of use. It also features a high density foam mattress with conductive cover.

SKU: T.5000SAHF

DENE0 TREATMENT CHAIR

The DENE0 treatment chair is a state-of-the-art resource designed to enhance comfort and relaxation during blood sampling procedures. Founded on durable, tested epoxy steel and upholstered with quality foam-based covering, the DENE0 combines functionality with innovative, convenient design.

For optimal patient positioning, there are two lateral polyurethane grips integrated into the DENE0, as well as two fully removable arm rests and a swivel adjusting system. Its one-piece structural makeup means it's fundamentally simple to operate.

There's also the added bonus of the DENE0's impeccable hygiene standards. Its seamless upholstery is covered with an antibacterial agent, and with the chair's removable handles, it's incredibly easy to clean. Enhance the comfort of every patient with the DENE0 treatment chair – a powerful, simple resource founded on medical innovation.

SMART MCI BAG

Midmed's SMART Triage products offer the definitive collection of items that all triage professionals need. In high-pressure emergency situations that call for triage, you can feel secure in calling on their products to seamlessly aid your decision-making process and save you valuable time. TSG have developed their incredible resources with the express aim of giving you quick, easy access to key information.

As an all-inclusive emergency kit, the SMART MCI Bag™ represents this aim most comprehensively. It's a complete grab bag. Ideal for use at large planned events where emergency help is needed, the SMART MCI Bag™ will provide the perfect base for your medical command post and is capable of treating up to 80 casualties.

SMARTSAFE VALUABLE STORAGE BAGS

SKU: TS.7325(0/1)

RESPONDER COMPRESSOR BANDAGE

The FareTec Responder Compression Bandages are designed for quick and easy application by caregivers to provide effective, multi-functional treatment in emergencies. The bandages are sterile, non-adherent pads that apply pressure to any site and are easily wrapped and secured. They restrict blood flow to aid in the treatment of traumatic bleeds. Available in three sizes: 4 inch, 6 inch and 8 inch widths.

SKU: F.222109(6/8)

COMPRESSION DRESSING

The Emergency Compression Dressing (ECD) is the newest addition to our established line of bandages. It provides a quick response and secure compression around large wounds. The center red hook patch allows for easy application and holds the 8" x 10" pad in place until responders can relocate the patient for further care. Thanks to our patented manufacturing process, the ECD also features an improved ABD pad and latex-free elastic wrap. The product is sterile until opened and is not made with natural rubber latex.

SKU: HH.

MINI COMPRESSION BANDAGE

Perfect for use in all situations, especially on children and elderly with thin limbs. The Mini Compression Bandage provides a fast, effective tool for many kinds of traumas and injuries (particularly those involving arterial bleeding in extremities).

SKU: HH.-2

H-BANDAGE COMPRESSION DRESSING

The H-Bandage is the latest in Universal Severe Trauma Dressings. An upgrade to our patented combat dressing Cinch Tight, the H-Bandage gives medics and field personnel both an emergency dressing and a hemostat for arterial bleeding and hemorrhaging in limbs. The H-Bandage's unique design allows for one-handed use under any condition. Designed for First Responders, Military, and Law Enforcement, the H-Bandage provides a fast, effective tool for all kinds of serious traumas and injuries involving arterial bleeding.

The unique design of the H-Bandage, with its 8" thick ABD pad and the unique 5 foot elastic wrap designed for both strength and flexibility along with the H-shaped cinch sewn into the bandage, allows it to satisfy multiple field needs. The H-shaped cinch allows for direct pressure to be applied directly on top of a wound, increasing compression and reducing blood loss.

SKU: HH.-3

DECON / HAZMAT SLED

The Med Sled® Decon/Hazmat Sled ensures easy movement of a non-ambulatory person through the Decon Shower process and safely transports to a cleared zone. (Not used for vertical evacuation.)

SKU: MS.36DC

STANDARD EVACUATION SLED

When timing is critical, the Med Sled® Evacuation Sled enables a person to evacuate another person out of a single-story building or down a stairwell of a multi-floor building. Stairwell braking system included on every sled. Evacuations - Made Easier.

SKU: MS.28, MS.36, MS.48

TACTICAL RESCUE SLED

SKU: MED.MS30

EXTRA ERGOLIFT STAIR CHAIR

Extra Ergolift is the powered version of the Extra track assisted stair chair with the same main structural features. The real innovation of Extra Ergolift is given by the electric motor that moves the tracks up and down the stairs without any effort by the operator. The motor is activated by a wireless console. The battery ensures a high autonomy and, in case of sudden discharging, this device will allow you to safely complete the service.

Extra Ergolift loads up to 200 kg in powered transport configuration and 230 kg in manual transportation. It can be used under rain or adverse weather conditions.

CT7 FEMORAL TRACTION SPLINT

After 2 years of development, the next-generation CT-7 is finally available. It has been tested under the harshest conditions around the world by an array of first responders and medics. The CT-7 femoral traction splint has been simplified by removing straps, velcro and all loose ends. It has a smaller footprint and no longer extends beyond the patient's foot. It has been made more rigid and indestructible with thicker carbon tubes. The traction mechanism is easy, fast and precise by utilizing an acme threaded polycarbonate rod system.
