DISPOSABLE CURTAINS

Each EcoMed disposable curtain is treated with the 3rd Generation Ultra-Fresh built-in antimicrobial protection.

SKU: EN.

BENDABLE IV ARMBOARD

The Bendable ArmBoard is a simple, cost effective, tapeless, means to position and secure the wrist to prevent unwanted movement when using arterial and peripheral (intravenous) lines. The ArmBoard is covered in a soft comfortable material and is fastened to the arm with adjustable hook and loop straps. The ArmBoard can be custom shaped to any position.

It can be used in the Operating Room, Recovery Room, ICU, Patient Care Units, and more.

SKU: DA.650

IV ARMOR

Midmed's IV-ARMOR minimizes downstream occlusions while enabling patient movement. The flexible protective overlay is the ideal way to maximize IV patency while protecting the site from patient tampering. It has several benefits including reducing the introduction of infection associated with IV reinsertion, and reducing downstream occlusion alarms. The IV-ARMOR also reduces risk of catheter kinking in a bend such as a wrist or elbow, and reduces risk of catheter movement in an area of bony prominence, such as back of hand or forearm. IV-ARMOR uses skin-friendly adhesive, and comes in a one size fits most box of 10.

STEPHEN H BARIATRIC TREATMENT CHAIR

The design, providing a high level of comfort for the patient, has been developed to provide a customised solution for the bariatric (high weight) patient care. The chair is able to move patients up to 300 kg. It is a multipurpose chair designed for hospital use during assessment, diagnosis, care and treatment. It is suitable for many different applications and may also be used to transport the patient from one department to another.

The backrest is produced with sufficient stability to carry out CARDIO PULMONARY RESUSCITATION. This medical device, made with stainless materials, represents the "ultimate" solution regarding the elimination of rust, thus significantly reducing the likelihood of bacterial contamination.

SKU: GB.SHA.STANDARD

DENEO TREATMENT CHAIR

The DENEEO treatment chair is a state-of-the-art resource designed to enhance comfort and relaxation during blood sampling procedures. Founded on durable, tested epoxy steel and upholstered with quality foam-based covering, the DENEEO combines functionality with innovative, convenient design.

For optimal patient positioning, there are two lateral polyurethane grips integrated into the DENEEO, as well as two fully removable arm rests and a swivel adjusting system. Its one-piece structural makeup means it's fundamentally simple to operate.

There's also the added bonus of the DENEEO's impeccable hygiene standards. Its seamless upholstery is covered with an antibacterial agent, and with the chair's removable handles, it's incredibly easy to clean. Enhance the comfort of every patient with the DENEEO treatment chair – a powerful, simple resource founded on medical innovation.

BLOOD SAMPLING CHAIR

The Promotal Blood Sampling Chair is high quality, particularly ideal for medical analysis laboratories. The reclinable backrest and foot cushion aid patient comfort, whatever model you choose (fixed/variable height; electric/hydraulic). The foot cushion is available in either a manual version (independent from the backrest) or an electrical version (combined with the backrest). The reclinable leg-rest is also available in manual (independent) or electric (combined with the backrest), enabling easier recline to the emergency position. Additionally, the 80 mm thick upholstery ensures maximum comfort for your patients. Two armrests allow examinations from the left or right, depending on your preference.
