DUCANTO CATHETER™

The SSCOR DuCanto Catheter is a new catheter that is unlike traditional Yankauer suction tips that are designed for controlled surgical settings. The SSCOR DuCanto Catheter was developed with both routine and emergency airway management in mind. It has a larger internal diameter making it significantly less likely to clog and is shaped to fit the oropharyngeal anatomy. The hyper curved catheter is shaped more like a patient's airway making it easy to position the catheter.

Additionally, the SSCOR DuCanto Catheter does not have a thumb port. By removing the vacuum control, the caregiver does not need to locate and continuously occlude the thumb port to clear a patient's airway. This allows continuous suction and keeps hands free.

SKU: SCR.200-00002C

HI-D BIG STICK SUCTION TIP

The SSCOR Hi-D Big Stick Suction Tip aims to combat the most common complaint for those using suction equipment for resuscitation procedures... clogged tips.

SKU: SCR.44241

VX-2® SUCTION UNIT

SKU: SCR.2310

DUET SUCTION UNIT

SKU: SCR.2314-230

QUICKDRAW® PORTABLE SUCTION UNIT

Combining the convenience of handheld suction with the performance of powered suction. The most efficient suction pump you have ever held in your hand. At only 1.2 kg, the SSCOR Quickdraw® is more efficient than the most powerful traditional suction units. It is compact and light enough to fit in an airway bag and be readily transported to the patient's side on every call.

Available in both rechargeable and battery operated variations

SKU: SCR.2403-230
