EQUIPMENT™

TRIAGE PACK™

The **SMART TRIAGE PACK™** gives the ultimate practical solution to effective on scene triage. By holding the key triage equipment, it initiates a systematic and thorough response, allowing for the rapid triage of adults and children at any scene, which has proven invaluable in enhanced control.

Contents include 20 **SMART TAG™**s, 20 **SMART CBRNE TAG™**s, a **SMART TAPE™** and light-sticks for identifying casualties in low light.

TAG™

The **SMART TAG™** is a comprehensive all-risk Triage Tag.

The folded design allows for effective triage that is quick and simple, allowing you to reprioritise your casualty quickly without losing information.

Made from durable materials, the **SMART TAG™** will survive the worst of conditions. The highly visible design enables quick identification of patient priority, speeding up the treatment of critical patients.

COMMANDER™

Designed for ease of use, the **SMART COMMANDER™** acts as a mobile command point providing a structured response to both routine incidents and multiple casualty events.

This flexible tool kit has proven to be effective all over the world. The detachable CBRNE, fire ground and hospital control boards enable an ordered response system and an efficient handover that speeds up decision making.
